

No accounting was made to us from June 30, 1914, until February 1921, at which time our licensee paid 4,131.00 francs for the period July 1, 1914, to December 31, 1920, inclusive. We have no record of the portion of this payment which applies to the various years.

As explained to Mr. Wemple when he was at our plant, we were confronted several years ago with the problem of office storage space and in order to make room for current correspondence we destroyed in 1926 all files dated prior to January 1, 1914. Books of record, of course, were not destroyed and it is for that reason that we are unable to give you copies of the original reports and can only furnish transcripts from our books of record.

Respectfully yours,

COLT'S PATENT FIRE ARMS MFG. COMPANY,  
H. D. FAIRWEATHER, Treasurer.
