# TROY M7A1 PDW 5.56

TROY's PDW is a modern, compact solution for Close Quarters Battle, replacing 5.56mm carbines and the 9mm submachine gun.

Utilizing a proprietary, patent pending spring and buffer system and heavy duty latch assembly, the refined design makes the TROY PDW system rugged, reliable and sturdy.

Every aspect of the PDW has been built from years of experience working with military and law enforcement agencies around the world. The result of our efforts: a tier one firearm that can't be matched in value.

Powerful and compact, TROY's PDW is highly concealable, appropriate for cross-body wear or carry in a backpack or case. TROY's retractable stock and short barreled design make for easy entry and exit from a vehicle. and the perfect choice for tactical users, law enforcement and personal security professionals alike.

Available in Black and Tan.

# COMPACT POWER

# TROY M7A1 CQB 5.56

TROY's M7A1 CQB features include a 10.5" barrel and a 10" SDMR rail with TROY folding BattleSights. Rear gunners need to be experienced and unwavering; TROY's M7A1 CQB features the same reliability.

Highly portable, the TROY Defense M7A1 CQB easily balances and shoots as hard as most larger guns. The TROY Defense M7A1 CQB is classified as a Short Barreled Rifle by the ATF. All NFA rules apply.

Available in Black and Tan.

# TROY M7A1 CARBINE 5.56

TROY's M7A1 Carbine won't sit in the gun safe collecting dust; you'll want to take this one out.

The M7A1 Carbine is the "big brother" of TROY's M7A1 PDW and CQB rifles.

The M7A1 Carbine features a TROY Suppressor Mount Flash Hider for Pre-Ban Models and a welded Muzzle Brake for Post-Ban Models. Both versions are built-off of an 11" SDMR rail with TROY folding BattleSights. Includes a TROY IC sling with two Q.D. Swivels and 2 TROY BattleMags.

Available in Black and Tan, Pre- and Post-Ban Configurations.

TROOP

# TROY SDMR 5.56

The TROY SDMR should be your "go to" black rifle for its unrivaled engineering and value. We took our popular Alpha rail, made it lighter and incorporated keymod slots into the design.

Features TROY's highly sought after BattleAx stock, which collapses compactly and securely with an unmatched storage capacity. The high-impact rubber butt plate composition decreases the weight of the original TROY BattleAx CQB Stock by 7 ounces and affords zero slip.

# SMOOTH OPERATION

# TROY PAR

The TROY Pump Action Rifle takes the ergonomics and versatility of the country's most popular rifle design and employs them in a new, manually operated option. The TROY PAR allows for great sporting and defense applications. It also is a sound choice for areas where legal ownership of the standard-semi-automatic modern sporting rifles such as AR series have been legislatively limited.

TROY's PAR features a TROY Alpha-style handguard with a full top-rail with integrated pump action. The folding stock features a quick release button to lock either folded or unfolded, and can telescope in 5 length positions.

Available in Black only.

*"A well-regulated Militia,  
being necessary to the security  
of a free State, the right of  
the people to keep and bear  
Arms, shall not be infringed."*

# TROY DELTA CARBINE

The new TROY Delta Carbine utilizes a TROY Delta Rail. This modular rail system is the most versatile, free-float system on the market, allowing you to attach smaller rail sections, as needed, without having the added weight of a full-length quad system.

The rifle features a M4 style 6 position stock with TROY markings, an A2 Flash Suppressor, a TROY BattleAx Control Grip, an A2 Front Fixed Sight and a TROY Rear Fixed Folding BattleSight.

Available in Black only.
