NEW in this Issue... Windham Weaponry .308 SRC (see Page 5)

Model: R16FTT-308
 Caliber: .308 / 7.62 x 51mm
 Includes: 20 Rd. PMag Magazine
 M.S.R.P.: \$1413

This Fall introduces Windham Weaponry's entry into the big bore world with this lightweight .308 SRC. At only 7.55 lbs, it brings big game wallop to the familiar and comfortable AR platform. A 16.5" medium profile chrome lined barrel will last through decades of hunting, and the Picatinny Railed Receiver and Gas Block offer the options to add your favorite sights or optics. As always, its quality is backed up by our Lifetime Transferable Warranty

Welcome to the Fall issue of the Windham Weaponry Catalog for 2013.

This year - only our second in existence here at Windham Weaponry - has been quite the roller coaster ride of sales, growth and new challenges. We now number about 90 employees, and have just about filled our business park here in Maine. We started the new year with the very successful introduction of our Carbon Fiber model which is produced by our Phoenix Division. Then the new MPC-RF came into being - primarily by public demand for a rear flip sight model to which they could attach their favorite optic or holographic sight. Some new Windhams in "camo clothing" appeared by late summer (see page 10) to offer the hunters a Windham model for the woods and field. Finally, we've just finished up our new .308 rifle, which proves to be the lightest, most versatile, best value rifle on the .308 market today (see page 5).

Our Law Enforcement Division has taken off like a cruiser with "blues blazing", and we're delighted and proud that so many of our country's finest have become customers. As we say to them, "we've got your back!", and prove it by offering excellent customer service, gunsmithing, as well as armorer's classes and our industry best Lifetime Transferable Warranty.

We hope you'll enjoy and use this new catalog. If you ever have questions, don't hesitate to call our Sales / Customer Service line Toll Free at 1-855-808-1888. We have folks ready to chat with you and solve your AR problems Monday thru Friday from 8:30 am - 5:00 pm (EST).

As always, we encourage you to take firearms safety seriously, to enjoy the great outdoors, and to communicate with us any time you like. We'd love to see photos of how you use your Windham Weaponry rifle! Visit us on Facebook, or go to:

WWW.WINDHAMWEAPONRY.COM

Best wishes and thanks from the

WINDHAM WEAPONRY TEAM

The Windham Weaponry Story... A team of the finest firearms manufacturers in the U.S.A. has been re-assembled to bring to market the highest quality AR type rifle possible. These good Maine folks - most of whom are former employees of Bushmaster Firearms - offer many years of experience in the industry, and all look forward to working with you, to serving your needs, and to building you a great rifle.

When the people who bought Bushmaster in 2006 decided to move it "lock, stock and barrel" out of Maine to New York in 2011, the original Bushmaster owner, Mr. Richard Dyke was left with both a dilemma and an opportunity. Almost to the day of the 2011 move, Mr. Dyke's non-compete clause expired. He still owned the property where Bushmaster had been built, and knew all the workers - now laid off - who had helped him build it. He made a decision to "get back in the game" and promptly put an email out to many of his former employees and friends asking if there was interest in joining him for a new project. With a resounding "yes" of support, he gathered the financing in two days, and started bringing people back into their long-time Windham manufacturing home. Phoenix-like, Windham Weaponry was on the rise.

Within three months, the first productions models of the new Windham Weaponry line had been perfected and delivered. Quality, fit, finish, durability, accuracy and value were all superb - giving credence to Windham Weaponry's motto "The Quality Goes In, Before The Rifle Goes Out". The firearms industry and consumers welcomed this new effort warmly, old friends and contacts were re-established, and sales grew. In less than a year and a half, Windham Weaponry had brought back almost 70 employees, benchmarked impressive sales numbers, and established their name as one of the pre-eminent firearms manufacturers in the country. The press heralded it as "truly an American success story", and all due to the vision of its founder.

Further growth for Windham Weaponry has already been planned and implemented. A "Carbon Fiber Division" has been established in Phoenix through a partnership with Patriot Ordnance Factory, and JC Machine and Motorsports LLC. The three companies have jointly occupied a new 12,000 square foot production facility in Phoenix which will produce rifles and firearms parts, and serve as a design and development center for new firearms products. Watch www.windhamweaponry.com for further developments as the Windham Weaponry story continues to unfold. Some of the members of the Windham Weaponry team are introduced below.

Richard Dyke
 Chairman of the Board and C.E.O.

"I was Chairman of Bushmaster, and Principal Owner from 1976 to 2006. I'm very pleased to have brought this fine group back together, and I'm delighted at the progress and products we've made in such a short time."

Warren Dyke
 President

"I'm excited to be involved with a company where the atmosphere is contagious from such engaged people, who are so dedicated to quality and customer satisfaction. That's what makes Windham Weaponry a great company!"

Jeff Dyke
 Treasurer

"I have worked for, and been involved with the original Bushmaster company for over 25 years, and I'm looking forward to helping build Windham Weaponry into another great company that we can all be proud of."

Allen Faraday
 Executive Vice President of Operations

"I worked for the original Bushmaster for 14 years. I'm excited to be back in the business with a great new company and a great team!"

Mark Eliason
 Vice President of Sales & Marketing

"I'm excited to be starting this new adventure called Windham Weaponry with my friends and former co-workers. We'll make and sell rifles that you can all be proud to own."

Todd Coons
 Vice President - Law Enforcement Sales

"After a career with the City of Portland Police Dept., I welcome the opportunity to bring my experience to help Windham Weaponry meet the needs of Law Enforcement Departments and Officers all around the country."

Yung Edwards
 Vice President - Phoenix Division

"I was a Manager for the old Bushmaster Carbon 15 Division for 5 years. It's exciting to be a part of such a dynamic new company."

Kim Burnham
 Chief Financial Officer

"I'm delighted to be able to bring my 8 years of experience in the firearms industry to Windham Weaponry, I'm anxious to acquire and renew relationships with our future customers, vendors and employees."

Cheryl Eliason
 Customer Service Manager

"I worked for Bushmaster Firearms in Customer Service for 12 years. I am looking forward to be working with great people to offer you the best products and customer service with this exciting new company."

Matt Hasty
 Retail Sales Manager

"I worked for Bushmaster for 12 years in Inventory Control, Customer Service, Sales and Project Management. I am very excited to be a part of Windham Weaponry and to have the opportunity to work with a great group of people."

Doug Price
 Production Manager

"I worked for Bushmaster for 17 years, first as an assembler, then 11 years as Production Manager. I'm excited and honored to be a part of Windham Weaponry and with great fellow employees."

Dale Lauten
 Invoicing/Production Planning Manager

"I previously worked for Bushmaster for 21 years. I am so thrilled to be back in the gun business and looking forward to establishing ourselves as THE BEST IN THE BUSINESS!"

"The Quality Goes In Before The Rifle Goes Out"

Though the Windham Weaponry team continues to grow, we wanted to offer this glimpse of some of the dedicated people of our team. They all help to make this the great organization it is. We introduce you to these fine Maine folks so you'll be able to put a face on the quality of your rifle. When you call Windham Weaponry, you won't get a menu or a recording - at least during regular business hours. We look forward to hearing from you.

Sherrie Nickerson
Purchasing Manager

"I worked for Bushmaster for 13 years in Purchasing, and I look forward to a bright future with this great Windham Weaponry team in our new company."

Tammy Hadley
Quality Control Manager

"I worked for Bushmaster for 12 years in Quality Control, and then as Outsourcing & Transportation Manager. I'm very excited to bring my knowledge to this new, Maine based company with such wonderful ownership."

Leon Douglas
Shipping / Receiving Manager

"I worked for Bushmaster Firearms for 9 years, and I'm very excited to be involved with this new company as a member of this great Windham Weaponry team."

Erik Winter
Gunsmith / Tech Support

"I worked for Bushmaster Firearms for 13 years as part of the production team and gunsmithing department. I am looking forward to helping provide excellent quality and customer service with this great new company and dedicated Windham Weaponry team!"

Percy Dieppa
Information Technology Manager

"I worked for Bushmaster 12 years. I'm elated to have the opportunity to be part of this great team. I'm extremely proud of everyone's dedication and attention to detail. That is what makes this company a great company!"

Karen Fogarty
Assistant to the V.P. of Sales & Marketing

"I worked for Bushmaster for 6 years, first as Executive Administrator and then managing HR. I am proud to be a part of this team of extraordinary people providing exceptional products and outstanding customer service."

Glenn Edwards
Maintenance Manager

"As a member of the Bushmaster family for 12 years, it was hard to see it leave. But now I have the great honor to be a part of a whole new company in the gun industry."

Jackie Eliason
Invoicing Department

"After 17 years with Bushmaster I was sorry to see it end. Now with the start of Windham Weaponry I am very happy to be reunited with old friends, and looking forward to exciting growth here."

Nicole Caron
Accounting Department

"This is a dream come true to work with such a great team. I previously worked for Bushmaster Firearms for 10 years. I am very excited to be part of this new adventure with Windham Weaponry."

Mary Galipeau
Compliance Manager

"I was previously with Bushmaster Firearms for 10 years as their Compliance Specialist. I am delighted to be part of the exciting new challenge ahead, and to working with this very experienced and professional Windham Weaponry team!"

Emil Braley
Assembly

"I worked for Bushmaster for 8 years in production & assembly. I'm proud to work for Windham Weaponry whose priority is the highest quality and dependability in the gun industry."

Karen Moore
Shipping Department

"Hi, I worked for the Bushmaster Team for 11 years. I am so thrilled to be a part of the new Windham Weaponry Team that has been my family for so long. We will be the Best of the Best in performance, quality and customer service."

Bill Buchanan
Assembly

"I worked for Bushmaster for 12 years. I'm really enthused about the new company and about making another superior product with a knowledgeable group of professional employees."

Ted Lauten
Transportation

"I previously worked for Bushmaster for 17 years. I am pleased to be working with my gun family again, and striving to provide the best products possible."

Ron Roberts
Customer Service

"I worked for Bushmaster for 12 years until the company closed. I'm thankful to Mr. Dyke and family for this opportunity to bring my production experience to this new company, and to once again to be associated with this great group that I've known for a very long time."

Joel Sanborn
Assembly

"I'm happy to once again be a part of a group of talented people that have nearly 400 combined years of experience in the firearms business."

Roger Cote
Quality Control

"I bring my 10 years of Military service and weapons repair skills to a wonderful company - making what I believe are the best AR rifles on the market. I worked for Bushmaster for 3 years and look forward to many more years of making great rifles for Windham Weaponry."

Windham Weaponry – Protecting Your Firearm Investment

Backing up our commitment to producing the finest rifles possible, every Windham Weaponry rifle includes our **Transferable Lifetime Warranty** - the best in the business!

TRANSFERABLE LIMITED LIFETIME WARRANTY

Windham Weaponry, Inc. (WWI) will warranty all firearms manufactured by WWI against any and all manufacturer's defects in material and workmanship which affect reasonable operation for the *lifetime of the firearm* to the purchaser. *This warranty is transferable from the original purchaser to a subsequent buyer.*

Warranty is established by registering online at:

<http://www.windhamweaponry.com>

or by phone with our Customer Service Department at 855-808-1888.

Warranty claims may be made by contacting Customer Service, either in writing or by phone for a Return Authorization number prior to delivering the *unloaded* firearm to Windham Weaponry, Inc., 999 Roosevelt Trail, Windham, Maine 04062, freight prepaid by the purchaser. Firearms and ammunition must be shipped separately. No COD shipments will be accepted.

WWI will repair or replace only those parts determined to be defective by the factory. This warranty does not apply to normal wear and tear of any parts or protective finishes.

The following are specifically excluded from coverage under this warranty and will cause said warranty to become null and void:

Damage or malfunction resulting from accident, negligence, misuse or unauthorized repair or alteration; barrel obstruction; use of ammunition other than NATO and/or SAAMI specification new production ammunition; use of any hand loaded, reloaded, imported or factory re-manufactured ammunition; failure to provide reasonable and necessary maintenance as described in the Operator's Manual accompanying the firearm; rust or corrosion; use of replacement parts other than parts authorized by WWI for use in WWI firearms; any unauthorized repair or any alteration, including of a cosmetic nature, performed on the firearm by an individual, organization, company or entity other than WWI; unreasonable or excessive use of the firearm.

Any finished products that are not assembled at our facilities, or are assembled using imported or used parts. This includes complete rifle kits, upper receivers, lower receivers, barrel assemblies, etc.

No implied warranties of any kind are made herein. Limited Lifetime Warranty does not apply to any accessory items.

WWI assumes no liability for accidental or consequential damages. Some states do not allow the exclusion or limitation of accidental or consequential damages and therefore this limitation may not apply to you.

The Windham Weaponry Limited Lifetime Warranty can be easily activated online (www.windhamweaponry.com), or by calling Toll-Free: 1-855-808-1888

By following the simple instructions on the Website Warranty Page, your Windham Weaponry Firearm's Warranty will be in effect immediately upon completion. The Windham Weaponry Team is dedicated to ensuring your satisfaction with their fine products, and hope you enjoy them safely for many years. If you need parts, service or advice concerning your rifle, we are never more than a phone call away, and will be pleased to help you.

Why a Windham Weaponry rifle is your best firearms value...

- ★ **LIFETIME WARRANTY** - transferable to any future owner.
- ★ **AN EXPERIENCED TEAM** - dedicated to quality Customer Service – we service what we sell! Superior AR Weapons Systems built in the State of Maine by experienced people who care.
- ★ **BARRELS** - of 4150 Chrome Moly Vanadium 11595E Steel with Chrome Lining in Bore and Chamber for long wear and ease of cleaning. Standard barrels are chambered for 5.56 NATO ammo, and are safe for both .223 and 5.56 NATO. Air Gauging is a standard step to help ensure accuracy. Final finish is military grade Black Manganese Phosphate for protection against rust and corrosion. On Varmint models, barrels are Precision 416R Stainless Steel, Fluted, with a Matte Finish. That barrel features a Compass Lake Specification Firing Chamber with Matched Bolt.
- ★ **HANDGUARDS** - we use the superior M4 Double Heat Shielded Handguards on most models. Varmint rifles are fitted with custom aluminum free-float forends.
- ★ **ALL PARTS MADE IN THE USA** - and "Q-C'd" in the factory by experienced professionals.
- ★ **BARREL EXTENSIONS** - All WW models are machined with the reliable M4 Feed Ramps for consistent cartridge feeding.
- ★ **BOLTS** - machined from Carpenter 158 Steel for strength and durability.
- ★ **BOLT CARRIERS** - Chrome Lined inside for durability, and machined from highest quality steel. Chrome Lined Gas Keys are staked on by our professional Gunsmiths.
- ★ **TRIGGERS** - are precision machined before being finished in Black Manganese Phosphate - then ground with a sharp release lip for smooth take up and a crisp release.
- ★ **TRIGGER GUARD** - a premium Aluminum Trigger Guard - much stronger than plastic varieties - is standard on many of our rifles.
- ★ **RECEIVERS** - CNC machined from Forged 7075 T6 Aircraft Aluminum - bead blasted to a non-reflective matte surface before final finishing in Hardcoat Black Anodize. We also mold receivers of a Carbon Fiber / Polymer Matrix - with 40% Carbon Fiber content.
- ★ **SAFETY SELECTOR INDICATOR MARKINGS** are shown on both sides of the Lower Receiver for added safety.

The RIFLES

.308 SRC Model

NOTE: FFL required for purchase of complete rifles.

New to Windham Weaponry this Fall, our .308 was developed from the many requests for a high power AR platform rifle for sport shooting/hunting that offered more range and stopping power than a .223. What will surprise the shooting community is its light weight - a mere 7.55 lbs. But this is no lightweight in terms of features, quality or value. CNC machined forged aluminum receivers - with Q.D. sling swivel sockets machined in to each side of the lower, an integral trigger guard, a high quality Hogue Beavertail pistol grip, a 20 Rd. Magpul PMag, and Windham Weaponry's quality and warranty all make this an amazing rifle value at an MSRP price of \$1431.00

Model: R16FTT-308

Caliber: .308 / 7.62x51mm

Type: Rifle

Weight: 7.55 Lbs. (without Magazine)

Length: 38" (34.1875" with Telestock collapsed)

Action: Semi-Automatic, Gas Impingement System

Capacity: 20 + 1- Ships with one 20 Round Magpul PMag Magazine

Safety: Manual Lever with Indicator Markings on Both Sides of Receiver

Receiver: Flat Top Upper Receiver with full length Picatinny Rail

Receiver Material: Forged 7075 T6 Aircraft Aluminum

Trigger Guard: Integral Trigger Guard of machined Aircraft Aluminum

Receiver Finish: Hardcoat Black Anodize Finish

Bolt Material: Carpenter 158 Steel

Barrel: 16.5" Medium Profile, Chrome Lined with A2 Flash Suppressor

Barrel Material: 4150M Chrome Moly Vanadium 11595E Steel

Rifling: 1 Turn in 10" - R. H. Twist - 6 Lands & Grooves

Stock: 6 Position Telescoping Buttstock with W-W Logo

Forend: Midlength Tapered Heat Shielded Handguards

Pistol Grip: Hogue Overmolded Beavertail Pistol Grip

Rear Sight: None - Ready for optics or other accessory sights

Front Sight: Picatinny Rail Gas Block - Ready for accessory sights

Packaging: Foam Lined, Hard Plastic Gun Case

Including: Black Web Sling, Q.D. Sling Swivel & 32 Page Full Color Operators Manual

Warranty: Windham Weaponry Transferable Lifetime

M.S.R.P.: \$1431.00

Made In

 The U.S.A.

- M.S.R.P.: \$1086.00

**Compliant MPC Models
for California • New Jersey • Massachusetts**

NJ-MA
Model shown

CA Model: R16M4A4T-CA
M.S.R.P. for both: \$1111.00
NJ-MA Model: R16M4A4PT-MA

"Compliant" Windham Weapony MPC models are available for legal sale in those States. The CA Model includes a 10 Round Magazine with a "Bullet Button" Magazine Release that requires a tool for magazine removal, and a standard telesock. The NJ-MA Model has a fixed length Telesock, 10 Round Magazine and compliant welded muzzle brake.

NOTE: FFL required for purchase of complete rifles.

A popular variant of the Windham Weaponry MPC, the MPC-RF includes a Diamondhead Rear Flip Sight to offer sighting flexibility. Just add your favorite Red Dot or Holographic Sight, and you've got a multipurpose platform with no worries about backup iron sighting.

- Model: R16M4LHRFT
- Caliber: .223 Rem. / 5.56mm NATO
- Type: Rifle
- Action: Semi-Automatic, Gas Impingement System
- Capacity: 30 + 1- Ships with one 30 Rd. Magazine (accepts all std. sizes)
- Safety: Manual Lever with Indicator Markings on Both Sides of Receiver
- Receiver: M4A4 Type Flat Top Upper Receiver
- Receiver Material: Forged 7075 T6 Aircraft Aluminum
- Receiver Finish: Hardcoat Black Anodize Finish
- Bolt Material: Carpenter 158 Steel
- Barrel: 16" M4 Profile, Chrome Lined with A2 Flash Suppressor
- Barrel Material: 4150 Chrome Moly Vanadium 11595E Steel
- Barrel Extension: Machined with M4 Feed Ramps
- Rifling: 1 Turn in 9" - Right Hand Twist
- Stock: 6-Position Telescoping Buttstock with Windham Weaponry Logo
- Forend: M4 Double Heat Shield Handguards

- M.S.R.P.: \$1086.00

MPC-RF-MFT
for even greater accessory flexibility:
A Mission First Tactical Quad Rail Handguard

Weight: 6.30 Lbs. without magazine
MPC-RF MFT Model: R16M4LHRFMFT
M.S.R.P.: \$1211.00

Adding the Mission First Tactical Quad Rail Handguard brings the MPC-RF-MFT to a new level of "accessory flexibility". With 4 Picatinny Rails, your options for mounting lights, foregrips, laser or bipod are limited only by mission specific needs.

NOTE: FFL required for purchase of complete rifles.

The Windham Weaponry SRC "sight ready carbine" was created for those AR shooters who intend to add their own aftermarket sights, scopes or optics, and want a rifle that offers the option of not purchasing factory sights. The SRC offers all the Windham Weaponry quality with the flexibility of front and rear same plane Picatinny Rails.

- Model: R16M4FTT

NOTE: FFL required for purchase of complete rifles.

To offer something more to the hunting community, we have created these beautiful "camo'd" SRC models. These are based on our SRC "Sight Ready Carbine", and we know AR hunters like to add their own favorite scopes or optics tailored specifically to the game they're after. The TimberTec Camo finish lends itself well to feral hog, deer and varmint hunting, while the TrueTimber Snowfall Camo is designed for winter hunting of any game that takes you into the cold!

TimberTec Camo SRC
Model: R16M4FTT-C3
M.S.R.P.: \$1160.00
Length: 36.125" overall
(32.375" w. Telestock Collapsed)
Weight: 6.30 lbs.
Caliber: .223/5.56mm
Semi-Automatic

Receivers / 6-Position
TeleStock / M4 Double Heat
Shield Handguards & A2 Pistol Grip are all finished in TimberTec Hydrographic Camo film - baked on to provide a durable surface of long-lasting beauty.

Features Common to Both Models

- Capacity: 30 + 1 - Ships with one 30 Rd. Magazine (accepts all std. sizes)
- Safety: Manual Lever with Indicator Markings on Both Sides of Receiver
- Receiver: M4A4 Type Flat Top Upper Receiver with Picatinny Rail
- Receiver Material: Forged 7075 T6 Aircraft Aluminum
- Bolt Material: Carpenter 158 Steel
- Barrel: 16" M4 Profile, Chrome Lined with A2 Flash Suppressor
- Barrel Material: 4150 Chrome Moly Vanadium 11595E Steel
- Barrel Extension: Machined with M4 Feed Ramps
- Rifling: 1 Turn in 9" - Right Hand Twist
- Trigger Guard: Machined Aluminum Trigger Guard
- Sights: None - Ready For Accessory Sight / Optics
- Packaging: Foam Lined, Hard Plastic Gun Case
- Including: Black Web Sling & 32 Page Full Color Operators Manual

TrueTimber Snowfall Camo SRC
Model: R16M4FTT-C2
M.S.R.P.: \$1160.00
Length: 36.125" overall
(32.375" w. Telestock Collapsed)
Weight: 6.30 lbs.
Caliber: .223/5.56mm
Semi-Automatic

Receivers / 6-Position
TeleStock / M4 Double Heat
Shield Handguards & A2 Pistol Grip are all finished in TrueTimber Snowfall Hydrographic Camo film - baked on to provide a durable surface of long-lasting beauty.

As with all our other rifles, these special camo models are covered by Windham Weaponry's Transferable Lifetime Warranty.

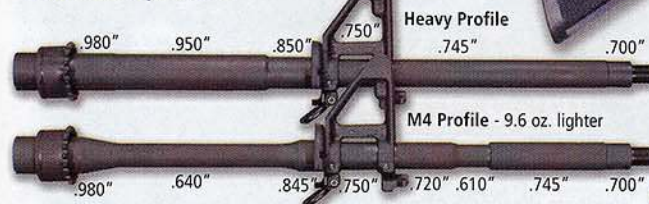

NOTE: FFL required for purchase of complete rifles.

The Windham Weaponry HBC model, our "heavy barreled carbine", is a close cousin to the MPC model except for its barrel - see the barrel comparison below. Some shooters feel the heavy profile provides more rigidity and accuracy, but either way its all 100% Windham Weaponry quality.

- Model: R16A4T
- Caliber: .223 Rem. / 5.56mm NATO
- Type: Rifle
- Action: Semi-Automatic, Gas Impingement System
- Capacity: 30 + 1 - Ships with one 30 Rd. Magazine (accepts all std. sizes)
- Safety: Manual Lever with Indicator Markings on Both Sides of Receiver
- Receiver: M4A4 Type Flat Top Upper Receiver with Detachable Carry Handle
- Receiver Material: Forged 7075 T6 Aircraft Aluminum
- Receiver Finish: Hardcoat Black Anodize Finish
- Bolt Material: Carpenter 158 Steel
- Barrel: 16" Heavy Profile, Chrome Lined with A2 Flash Suppressor
- Barrel Material: 4150 Chrome Moly Vanadium 11595E Steel
- Barrel Extension: Machined with M4 Feed Ramps
- Rifling: 1 Turn in 9" - Right Hand Twist
- Stock: 6-Position Telescoping Buttstock with Windham Weaponry Logo
- Forend: M4 Double Heat Shield Handguards
- Pistol Grip: A2 Black Plastic Pistolgrip
- Trigger Guard: Machined Aluminum Trigger Guard
- Rear Sight: A4 Dual Aperture Elevation & Windage Adjustable: 300 - 600 M
- Front Sight: Adjustable Height Square Post in A2 Standard Base
- Packaging: Foam Lined, Hard Plastic Gun Case
- Including: Black Web Sling & 32 Page Full Color Operators Manual
- Weight: 7.45 Lbs. (without Magazine)
- Length Overall: 36.125" (32.375" with Telestock collapsed)
- Warranty: Windham Weaponry Transferable Lifetime
- M.S.R.P.: \$1096.00

Heavy Barrel Profile & M4 Barrel Profile Comparison...

The Heavy Barrel profile features more thickness under the handguard area, and a straight machine turning from the sight base forward to the slight step before the muzzle threading. The M4 Barrel profile is turned thinner and lighter under the handguards. The .610" step cut forward of the sight base is designed for mounting an M4 Grenade Launcher.

NOTE: FFL required for purchase of complete rifles.

The Windham Weaponry VEX-SS is our "varmint exterminator", and was designed with the varmint hunter in mind. Its highly accurate 20" stainless steel barrel is matte finished to cut reflection and fluted to reduce weight. Aftermarket sights, scopes or optics can be mounted - scope riser blocks are included to provide a comfortable cheek weld on the skeleton stock. A knurled and vented forend with bipod stud and sling swivel free floats the barrel for optimum accuracy.

- Model: R20FSSFTSKV
- Caliber: .223 Remington
- Type: Rifle
- Action: Semi-Automatic, Gas Impingement System
- Capacity: 5 + 1 - Ships with one 5 Round Magazine (accepts all std. sizes)
- Safety: Manual Lever with Indicator Markings on Both Sides of Receiver
- Receiver: M4A4 Type Flat Top Upper Receiver with Optics Riser Blocks
- Receiver Material: Forged 7075 T6 Aircraft Aluminum
- Receiver Finish: Hardcoat Black Anodize Finish
- Bolt Material: Carpenter 158 Steel
- Barrel: 20" Stainless Steel - Fluted - Matte Finish
- Barrel Material: Precision 416R Stainless Steel
- Chamber: Compass Lake Specification with Matched Bolt
- Rifling: 1 Turn in 8" for heavier varmint bullets - Right Hand Twist
- Stock: Skeleton Stock with Sling Swivel
- Forend: Knurled, Vented Aluminum Free-Floating Forend with Sling Swivel
- Pistol Grip: Hogue Overmolded Rubber Pistol Grip
- Trigger Guard: Machined Aluminum Trigger Guard
- Rear Sight: None - ready for sights or optics on Picatinny Rail platform
- Front Sight: None - Picatinny Rail Gas Block ready for accessory sights
- Packaging: Foam Lined, Hard Plastic Gun Case
- Including: Black Web Sling & 32 Page Full Color Operators Manual
- Weight: 8.20 Lbs. (without Magazine)
- Length Overall: 38.5"
- Warranty: Windham Weaponry Transferable Lifetime
- M.S.R.P.: \$1295.00

**For Winter Hunting...
The Snow Camo VEX-SS**

Model: R20FSSFTS-C1
M.S.R.P.: \$1470.00

The Snow Camo VEX-SS is almost completely covered in our unique winter camouflage pattern - perfect for winter varmint hunting.

CA Compliant VEX-SS Model

CA Model: R20FSSFTSKV-CA
M.S.R.P.: \$1320.00

Windham Weaponry offers a VEX-SS model compliant with regulations there. The CA Model includes a 5 Round Magazine with a "Bullet Button" Magazine Release which requires a tool for magazine removal. Other than that, specs are same as the VEX-SS described above.

NOTE: FFL required for purchase of complete rifles.

The Windham Weaponry Carbon Fiber SRC was born out of the latest carbon fiber composite molding technology to bring you an AR type rifle of incredibly light weight - without sacrificing any Windham Weaponry quality, durability, accuracy or value. All the same high quality components of our standard models are married with carbon fiber molded receivers, and with our Lifetime Transferable Warranty, you can be guaranteed we will stand behind its quality for a lifetime.

- Model: R16M4FTT-CF1
- Caliber: .223 Rem. / 5.56mm NATO
- Type: Rifle
- Action: Semi-Automatic, Gas Impingement System
- Capacity: 30 + 1 - Ships with one 30 Rd. Magazine (accepts all std. sizes)
- Safety: Manual Lever with Indicator Markings on Both Sides of Receiver
- Receiver: M4A4 Type Flat Top Upper Receiver with molded Picatinny Rail
- Receiver Material: Molded Carbon Fiber Composite
- Receiver Finish: Carbon Fiber Matte Black - as molded
- Bolt Material: Carpenter 158 Steel
- Barrel: 16" M4 Profile, Chrome Lined with A2 Flash Suppressor
- Barrel Material: 4150 Chrome Moly Vanadium 11595E Steel
- Barrel Extension: Machined with M4 Feed Ramps
- Rifling: 1 Turn in 9" - Right Hand Twist
- Stock: 6-Position Telescoping Buttstock with Windham Weaponry Logo
- Forend: M4 Double Heat Shield Handguards
- Pistol Grip: A2 Black Plastic Pistol Grip
- Trigger Guard: Integral Molded Carbon Fiber
- Rear Sight: None - ready for accessory sights or optics
- Front Sight: None - Picatinny Rail Gas Block ready for accessory sights
- Packaging: Foam Lined, Hard Plastic Gun Case
- Including: Black Web Sling & 32 Page Full Color Operators Manual
- Weight: 5.85 Lbs. (without Magazine)
- Length Overall: 36.125" (32.375" with Telestock collapsed)
- Warranty: Windham Weaponry Transferable Lifetime
- M.S.R.P.: \$958.00

**Carbon Fiber Molded Technology
for the next generation of AR15 rifles...**

Windham Weaponry's carbon fiber composite molded receivers bring much more than light weight to the range! Carbon fiber receivers will dissipate heat faster than aluminum, have no surface finish to wear off, and the carbon fiber composite has an inherent lubricity that enhances long wear. Windham Weaponry's receiver molds were created at a state of the art design facility to yield a superior fit and function while utilizing many standard AR parts.

Our Carbon Fiber Receivers retain all the recognizable features of the AR platform, but are molded with a unique "billet machined" appearance. The Carbon Fiber SRC is available at your FFL dealer now, with other models being developed to follow.

LAW ENFORCEMENT MODELS

When you need the right tool for the job,
WE'VE GOT YOUR BACK.

Windham Weaponry brings its superb quality, accuracy and durability to this line of fine Law Enforcement models. Beyond our standard models shown here, we encourage officers, agents and departments to contact our Law Enforcement Sales Manager so that we can create exactly the configuration that will meet your specific needs. As always, Windham Weaponry is proud to offer a Lifetime Transferable Warranty on all its rifles. See www.windhamweaponry.com for complete details.

NOTE: FFL required for purchase of complete rifles.

Model: R16M4FT-SB02

- .223 Rem. / 5.56mm NATO Caliber
- 16" M4 Barrel of 4150 Chrome Moly Vanadium 11595E Steel w. M4 Feed Ramps, Chrome Lined, Rifled 1 x 9" RH
- Semi-Automatic, Gas Impingement System
- Ships with one 30 Rd. Magazine (accepts all sizes)
- M4A4 Type Flat Top Upper Receiver with Diamondhead Dual Aperture Flip-Up Sight • Diamondhead Front Flip-Up Sight on Picatinny Rail Gas Block • Carpenter 158 Steel Bolt • 6-Position Telescoping Buttstock with single point QD Sling Adapter • A2 Black Plastic PistolGrip • Diamondhead 2-Piece Aluminum Handguard w. Barreled Upper Receiver Assemblies

Windham Weaponry Barreled Upper Receiver Assemblies are sold in a variety of configurations to allow the shooter or home assembler many choices. The "RANGE-READY" assemblies are just that - completely assembled with all necessary parts, ready to snap onto your lower receiver and take to the range for firing. Because many AR shooters may already have a Bolt Carrier Assembly, a Charging Handle, or perhaps an A4 Removable Carry Handle, we offer configurations that allow them to save money and utilize these components. Regardless of configuration, you can be assured that a Windham Weaponry Barreled Upper Receiver Assembly is the same high quality and superb accuracy that we use when assembling our complete rifles.

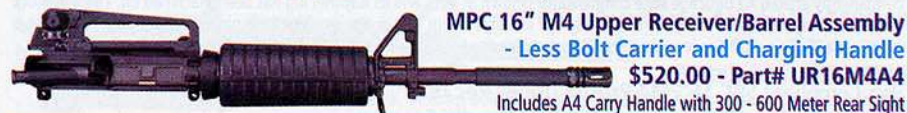

Range-Ready MPC 16" M4 Profile Upper Receiver/Barrel Assembly - \$665.00
Part# UR16M4A4B

Includes Bolt Carrier Assembly, Charging Handle, A4 Carry Handle
This 16" M4 Profile Barreled Upper Assembly from our popular "MPC" carbine, is complete and ready to snap onto your Lower Receiver. The highly accurate 16" M4 barrel is machined from 4150 Chrome Moly Vanadium 11595E steel - rifled 1 x 9" Right Hand Twist, and chrome lined for long wear and easy cleaning. An A2 Flash Suppressor and standard A2 Front Sight are fitted, and the machined aluminum flat top Upper Receiver is complete with Bolt, Bolt Carrier Assembly, Charging Handle, Forward Assist, Ejection Port Cover, and Removable A4 Carry Handle with 300 - 600 meter Dual Aperture Rear Sight.

MPC 16" M4 Upper Receiver/Barrel Assembly - Less Carry Handle - \$570.00
Part# UR16M4LHB

Includes Bolt Carrier Assembly & Charging Handle

MPC 16" M4 Upper Receiver/Barrel Assembly - Less Bolt Carrier and Charging Handle \$520.00 - Part# UR16M4A4

Includes A4 Carry Handle with 300 - 600 Meter Rear Sight

16" M4 Profile Upper Receiver/Barrel Assembly - Less Bolt Carrier, Charging Handle and A4 Removable Carry Handle \$425.00 - Part# UR16M4LH

16" M4 "BAN COMPLIANT" Upper Receiver/Barrel Assemblies for NJ & MA

Ban Compliant 16" MPC M4 Profile Upper Receiver Barrel Assembly - \$695.00
Part# UR16M4A4PBB

This range ready M4 Barreled Upper Receiver Assembly is compliant with regulations in the States of Massachusetts, and New Jersey. Differences from the MPC Assemblies above are the permanently affixed A2 birdcage style compensator (shown at left), and the bayonet lug has been machined off. Standard A2 Front Sights are fitted. The aluminum flat top Upper Receiver is complete with Bolt, Bolt Carrier Assembly, Charging Handle, Forward Assist, Ejection Port Cover, and A4 Removable Carry Handle with 300 - 600 meter Dual Aperture Rear Sight.

Ban Compliant 16" MPC M4 Upper Receiver/Barrel Assembly - Less Carry Handle \$600.00 - Part# UR16M4LHPBB

Includes Bolt, Bolt Carrier Assembly & Charging Handle

Compliant MPC 16" M4 Upper Rec./Bbl. Assembly - Less Bolt Carrier and Charging Handle \$550.00 - Part# UR16M4A4PB

Includes A4 Carry Handle with 300 - 600 Meter Rear Sight

Ban Compliant MPC 16" M4 Profile Upper Rec./Bbl. Assembly - Less Bolt Carrier, Charging Handle and A4 Removable Carry Handle \$455.00 - Part# UR16M4LHPB

Barreled Upper Receiver Assemblies

Windham
Weaponry

Range-Ready 16" SRC M4 Profile Upper Receiver/Barrel Assembly - \$575.00
Part# UR16M4FTB

Includes Bolt Carrier Assembly and Charging Handle

This is the complete M4 Barreled Upper Assembly from our unique "SRC" rifle. Its tack-driving 16" M4 profile barrel is chrome lined and machined from 4150 Chrome Moly Vanadium 11595E steel - rifled 1 x 9" Right Hand Twist - fitted with an A2 Flash Suppressor. A Picatinny Rail gas block with sling swivel and bayonet lug allows the attachment of a variety of Front Sights. M4 dual heat shield Handguards complete the barrel. The machined aluminum flat top Upper Receiver is complete with Bolt, Bolt Carrier Assembly, Charging Handle, Forward Assist, and Ejection Port Cover - ready for rear sight/optics of choice.

16" SRC M4 Profile Upper Receiver/Barrel Assembly - Less Bolt Carrier & Charging Handle
\$430.00 - Part# UR16M4FT

16" SRC "BAN COMPLIANT" Upper Receiver/Barrel Assemblies for NJ & MA

Ban Compliant 16" SRC M4 Profile Upper Receiver/Barrel Assembly - \$605.00
Part# UR16M4FTPB

This M4 Barreled Upper Receiver Assembly from our SRC Rifle is compliant with regulations for the States of MA, and NJ. The accurate 16" M4 profile barrel is chrome lined and machined from 4150 Chrome Moly Vanadium 11595E Steel with M4 feed ramps, rifled 1 x 9" RHT. The barrel includes a permanently affixed A2 birdcage style compensator (shown at left), and its bayonet lug has been machined off. The Gas Block is our Picatinny Rail type - ready for the addition of accessory front sights. The machined aluminum flat top Upper Receiver is complete with Bolt, Bolt Carrier Assembly, Charging Handle, Forward Assist and Ejection Port Cover.

Ban Compliant SRC 16" M4 Profile Upper Rec./Bbl. Assembly - Less Bolt Carrier, Charging Handle & A4 Removable Carry Handle
\$460.00 - Part# UR16M4FTPB

20" Varmint Exterminator Upper Receiver/Barrel Assembly
Part# UR20FSSFTVB
\$775.00

Includes Bolt Carrier Assembly & Charging Handle

This superbly accurate Assembly - from our VEX-SS "Varmint Exterminator Rifle" - is ready for the range or varmints. Precision machined from 416R Stainless Steel, it includes a matched bolt and carrier machined from Carpenter 158 Steel which is machined to mate with the Compass Lake specification chamber for highest possible accuracy. The barrel is matte finished to avoid reflective glare, and is fluted to reduce weight, increase barrel surface and add rigidity. A Picatinny Rail Gas Block is included should you want to attach a front sight, as are 1/2" high "mini-risers" for the easy attachment of a scope or optic. Button rifling is 1 turn in 8 inches - right hand twist for optimum accuracy with a wide range of heavier .223 Rem. / 5.56mm NATO varmint bullets. NOTE: This assembly is in compliance with regulations in the States of New Jersey and Massachusetts as it has no bayonet lug or flash hider.

Range-Ready HBC 16" Heavy Upper Receiver/Barrel Assembly - \$655.00
Part# UR16A4B

Includes Bolt Carrier Assembly, Charging Handle, A4 Carry Handle

This heavy barreled Upper Assembly is complete and ready to snap onto your Lower. A highly accurate 16" heavy profile barrel - chrome lined and machined from 4150 Chrome Moly Vanadium 11595E steel is rifled 1 x 9" RHT. An A2 Flash Suppressor and standard A2 Front Sight are fitted. The machined aluminum flat top Upper Receiver is complete with Bolt, Bolt Carrier Assembly, Charging Handle, Forward Assist, Ejection Port Cover, and Removable A4 Carry Handle with 300 - 600 meter Dual Aperture Rear Sight.

HBC 16" Heavy Upper Receiver/Barrel Assembly - Less Carry Handle - \$560.00
Part# UR16LHB

Includes Bolt Carrier Assembly & Charging Handle

Barreled Upper Receiver Assemblies

Windham
Weaponry

HBC 16" Heavy Upper Receiver/Barrel Assembly - Less Bolt Carrier and Charging Handle
\$510.00 - Part# UR16A4

Includes A4 Carry Handle with 300 - 600 Meter Rear Sight

16" Heavy Upper Receiver/Barrel Assembly - Less Bolt Carrier, Charging Handle and A4 Removable Carry Handle
\$415.00 - Part# UR16LH

14.5" UPPER RECEIVER/BARREL ASSEMBLIES WITH EXTENDED FLASH HIDERS - A2 OR PHANTOM

Extended A2 Flash Hider

Both the Extended A2 Flash Hider and the Phantom Flash Hider - when permanently affixed (pinned & welded over) on a 14.5" barrel comply with 16" total legal barrel length.

Phantom Flash Hider

Range-Ready 14.5" M4 Profile Upper Receiver/Barrel Assembly - \$695.00
w. Extended A2 Flash Hider
Part# UR14M4-7FHA4B

1 x 7 RH Twist
Includes Bolt, Bolt Carrier Assembly, Charging Handle, A4 Carry Handle & Extended A2 Birdcage

Range-Ready 14.5" M4 Profile Upper Receiver/Barrel Assembly - \$695.00
w. Phantom Flash Hider
Part# UR14M4-7PHA4B

1 x 7 RH Twist Barrel, Includes Bolt, Bolt Carrier Assembly, Charging Handle, A4 Carry Handle.

14.5" M4 Upper Receiver/Barrel Assembly w. Extended A2 Flash Hider - Less Bolt Carrier and Charging Handle - \$550.00

Part# UR14M4-7FHA4 Includes A4 Carry Handle, 1 x 7 RH Twist

14.5" M4 Upper Receiver/Barrel Assembly with Phantom Flash Hider - Less Bolt Carrier and Charging Handle - \$550.00

Part# UR14M4-7PHA4 Includes A4 Carry Handle, 1 x 7 RH Twist

14.5" "SHORT BARRELLED" Upper Receiver/Barrel Assemblies... *These Assemblies have barrel lengths under the legal minimum length for a rifle of 16", and therefore MUST BE USED IN - OR WITH - A TITLE II RECEIVER (NFA REGISTERED) FOR LEGALITY. This requirement is in accordance with Title 27 Code of Federal Firearms Regulations [Subpart B-Definitions (479.11) (a) thru (g) under Firearms]. For further questions concerning Local, State or Federal compliance, please contact the Alcohol, Tobacco, & Firearms Bureau (<http://www.atf.gov/>), or consult our Law Enforcement Sales Manager.*

Range-Ready 14.5" M4 Profile Upper Receiver/Barrel Assembly - \$665.00
Part# UR14M47A4B

Includes Bolt, Bolt Carrier Assembly, Charging Handle & A4 Carry Handle

This M4 Barreled Upper Assembly is complete and range or duty ready. The 14.5" M4 Profile Barrel is chrome lined and machined from 4150 Chrome Moly Vanadium 11595E Steel. Rifling is 1 x 7" RHT to stabilize bullets from 50 to 77 grains, and the barrel extension has the M4 style feed ramps. An A2 Flash Suppressor and standard A2 Front Sight are fitted. The machined aluminum flat top Upper Receiver is complete with Bolt, Bolt Carrier Assembly, Charging Handle, Forward Assist, Ejection Port Cover, and Removable A4 Carry Handle with 300 - 600 meter Dual Aperture Rear Sight.

Barreled Upper Receiver Assemblies

Windham
Weapony

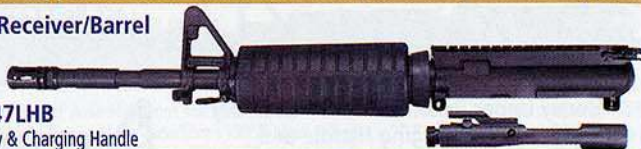

14.5" "SHORT BARRELLED" Upper Receiver/Barrel Assemblies (continued)... NFA Rules apply.

14.5" M4 Profile Upper Receiver/Barrel Assembly

Less A4 Carry Handle

\$570.00 - Part# UR14M47LHB

Includes Bolt, Bolt Carrier Assembly & Charging Handle

\$520.00 - Part# UR14M47A4

Includes A4 Carry Handle

14.5" M4 Profile Upper Receiver/Barrel Assembly

Less Bolt Carrier, Charging Handle & A4 Carry Handle

\$425.00 - Part# UR14M47LH

20" A2 Government Profile Upper Receiver/Barrel Assemblies...

The 20" A2 profile has been frequently requested, and is based on an M16 design from the Vietnam Era - with a narrower turning under the handguards for light weight while still offering the accuracy of a 20" barrel and its longer sight radius. These are available as Uppers below or Barrels on Page 24.

Range-Ready A2 Gov't. Profile 20" Upper Receiver/Barrel Assembly - \$665.00

Part# UR20GVTA4B-7

Includes: Bolt Carrier Assembly, Charging Handle, A4 Carry Handle

This A2 Gov't. profile barreled Upper Assembly is complete and ready to snap onto your Lower. The highly accurate 20" barrel is chrome lined and machined from 4150 Chrome Moly Vanadium 11595E steel rifled 1 x 7" RHT. An A2 Flash Suppressor, standard A2 Front Sight and rifle length handguards are fitted. The machined aluminum flat top Upper Receiver is complete with Bolt, Bolt Carrier Assembly, Charging Handle, Forward Assist, Ejection Port Cover, and Removable A4 Carry Handle with 300 - 600 meter Dual Aperture Rear Sight adjustable for windage and elevation.

A2 Gov't. Profile 20" Upper Receiver Barrel Assembly - \$520.00

Part# UR20GVTA4-7

Includes: A4 Carry Handle

Similar to the assembly above, this A2 Gov't. profile barreled Upper Assembly offers savings if you already own a Bolt Carrier Assembly and Charging Handle. The 20" barrel chrome lined is machined from 4150 Chrome Moly Vanadium 11595E steel and rifled 1 x 7" Right Hand Twist. It includes the A2 Flash Suppressor, standard A2 Front Sight and rifle length handguards. The machined aluminum flat top Upper Receiver includes, Forward Assist, Ejection Port Cover and Removable A4 Carry Handle with 300 - 600 meter Dual Aperture Rear Sight adjustable for windage and elevation.

Includes: Bolt Carrier Assembly & Charging Handle

A2 Gov't. Profile 20" Upper Receiver Barrel Assembly - Less Carry Handle - \$570.00

Part# UR20GVTLHB-7

This 20" A2 Gov't. profile Upper Assembly is designed for the shooter who plans to add a scope or optic, or already owns an A4 Carry Handle. It is complete and ready to snap onto your Lower. Chrome lined and machined from 4150 Chrome Moly Vanadium 11595E steel, rifled 1 x 7" RHT, an A2 Flash Suppressor, standard A2 Front Sight and rifle length handguards are fitted. The machined aluminum flat top Upper Receiver is complete with Bolt, Bolt Carrier Assembly, Charging Handle, Forward Assist and Ejection Port Cover.

A2 Gov't. Profile 20" Upper Receiver Barrel Assembly - Less Carry Handle & Bolt/ Bolt Carrier - \$425.00

Part# UR20GVTLH-7

Similar to the assembly above, this Upper Assembly is for the AR shooter who already owns a Bolt Carrier Assembly, Charging Handle, and sights. The 20" barrel chrome lined is machined from 4150 Chrome Moly Vanadium 11595E steel and rifled 1 x 7" Right Hand Twist. It includes the A2 Flash Suppressor, standard A2 Front Sight and rifle length handguards. The machined aluminum flat top Upper Receiver includes, Forward Assist and Ejection Port Cover.

Upper Receivers / Parts

Windham
Weapony

AR15/M16 Flat-Top Upper Receiver Assembly - \$155.00 - Part# URA-FT

Partially assembled with an Ejection Port Cover and Forward Assist Assembly, this quality CNC machined Upper is 7075T6 Aircraft Aluminum finished in Hard Black Anodize to a non-reflective matte surface for protection against corrosion. It features an integral Picatinny Rail that will accept a wide variety of rear sights, optics, or the A4 Removable Carry Handle.

AR15/M16 Stripped Flat-Top Upper Receiver - \$135.00 - Part# UR-FT

Build your AR15/M16 from a quality base. CNC Machined from 7075T6 Aircraft Aluminum with an integral Picatinny Rail, this quality Upper with brass deflector is finished in Hard Black Anodize for a non-reflective matte surface and protection against corrosion. Ready for installation of an Ejection Port Cover Kit and Forward Assist Assembly.

Mini Scope Riser Block for Flat-top Receivers - \$15.95 - Part# KIT-MR-02

Raises scope or optic above the flat-top upper (purchase 2). Black anodize finished aluminum with screws (1 3/8" long - adds 1/2" height).

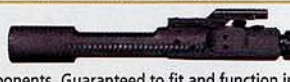

A4 Removable Carry Handle - \$110.00 - Part# 12951011

For versatility on Picatinny Rail Flat-Top Uppers, nothing beats the A4 Removable Carry Handle. Clamp it on when carrying or using its Dual Aperture 1/2 M.o.A. Elevation and Windage Adjustable 300 - 600 Meter Iron Sights or remove to attach scopes or optics. Machined from Hard Anodized Aircraft Aluminum with Steel Thumb Nuts, Clamping Bar and Sight Parts.

M16 Bolt Carrier Assembly Complete - \$134.95 - Part# 8448501

A complete M16 Bolt Carrier Assembly with Chrome Lining inside the Carrier for longevity. Includes a staked-on Gas Key with Chrome Lining, a complete Bolt Assembly, Cam Pin, Firing Pin, and Firing Pin Retaining Pin - all highest quality components. Guaranteed to fit and function in your Windham Weapony rifle, and many others.

AR15 Bolt Carrier Assembly Complete - \$134.95 - Part# 8448501-AR

Same features as above with additional machining on the bottom to meet AR specs.

M16 Bolt Carrier with Key - \$74.95 - Part# 8448505

An M16 Bolt Carrier - same as used in our rifles - Chrome Lined inside the carrier for long wear with a Chrome Lined Gas Key staked-on by our gunsmiths. Highest quality steel, precision machined and finished in black manganese phosphate.

AR15 Bolt Carrier with Key - \$74.95 - Part# 8448505-AR

Same quality materials and finish as above with additional machining to AR specs.

Complete Charging Handle Assembly for AR15/M16 (A) - \$24.95 - Part# 8448517

Machined from high quality 7075T6 Aircraft Aluminum, and Hard Black Anodize finished, this complete Charging Handle Assembly includes the Latch and its Spring and Spring Pin - ready to slide into your Upper Receiver.

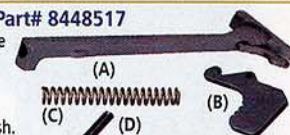

Charging Handle Latch Only (B) - \$3.50 - Part# 8448519

High quality steel Charging Handle Latch with locking tab - black phosphate finish.

Charging Handle Latch Spring Only (C) - \$0.50 - Part# 8448520

High tensile strength spring steel wire for positive Latch function.

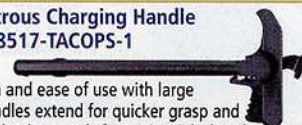

Latch Spring Pin Only (D) - \$0.50 - Part# 8448521 1/16" x 1/4"

TacOps-1 Ambidextrous Charging Handle

\$74.95 - Part# 8448517-TACOPS-1

Developed to offer ambidextrous operation and ease of use with large scopes. "T" shaped handles extend for quicker grasp and dual mode push button latch extends for easier right hand operation from prone position. A 42% larger roll pin and heavier stainless steel latch spring keeps it locked onto receiver. 7075 billet aluminum with a black hard anodize finish. Made in U.S.A.

Badger Tactical Latch for AR15/M16 \$19.95 - Part# TAC-LATCH

An extended latch for rapid operation of the charging handle with right or left hand, with gloves, or in mud and snow. Perfect for use with a scope, it replaces the standard latch. 8620 ordnance steel with parkerized Mil Spec finish. In service with Marines, SEALs, Rangers, Special Forces and tactical units worldwide.

Complete Charging Handle Assembly with a Badger Tactical Latch Installed... \$42.95 - Part# 8448517-TAC

Round Forward Assist Parts Kit - \$13.50 - Part# KIT-FWDASSIST-RD

Build a new Upper or renew worn parts. Includes black phosphate finished Forward Assist (pre-assembled with Pawl, Detent, Spring and Pin), Forward Assist Spring, and Spring Pin.

Round Forward Assist Only (A) - \$12.95 - Part# 9349086

Round Forward Assist Spring Only (B) - \$0.50 - Part# 8448540

Round Forward Assist Spring Pin Only (C) - \$0.50 - Part# MS16562-121

AR15/M16 Ejection Port Cover Parts Kit - \$7.95 - Part# KIT-EPC

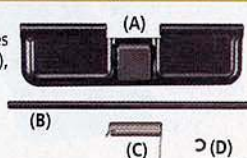

To build a new Upper, or replacing lost parts, this Ejection Port Cover Parts Kit includes black phosphate finished Ejection Port Cover (with latch and spring loaded detent installed), Ejection Port Cover Rod, Cover Rod "C" clip and high tensile strength coil spring.

Ejection Port Cover Only (A) - \$5.95 - Part# 8448525

Ejection Port Cover Rod Only (B) - \$1.50 - Part# 8448533

Barrel Kits / Barrels / Barrel Parts

Windham
Weaponry

Windham Weaponry Barrel Kits, Barrels and Parts are all the highest quality we can produce. Barrel blanks start as raw 4150 Chrome Moly Vanadium 11595E steel - the finest and most appropriate steel for a gun barrel. After drilling, the button rifling process takes place. Most are rifled 1 turn in 9" - right hand twist - which we have found to be the best compromise for the widest range of bullet weights. Rifling is altered for specific applications: VEX-SS barrels are 1 in 8" twist for the generally heavier bullets used in varmint hunting; some short LE barrels are done in 1 x 7" for stability in a short barrel.

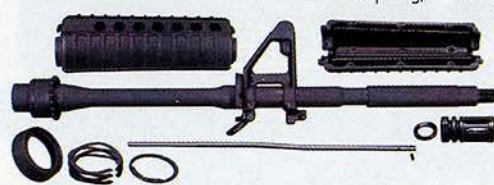

After rifling, the barrel is lathe turned to the particular barrel profile, and hardened to Rockwell C26 - 33. A Chrome Lining is applied to the barrel and chamber (except the Stainless Steel VEX) as the chrome finish offers easier cleaning, protection against corrosion and rust, and longest wear possible - lasting thousands of rounds longer than non-chromed barrels. The chrome lining in the barrel and chamber also adds a natural lubricity which improves chambering and extraction, and improves bullet velocity.

In final steps, steel barrels are finished in Black Manganese Phosphate to a rich matte black, non reflective surface that also protects against rust and corrosion. The stainless steel VEX barrels are matte finished to reduce reflection and improve hunting concealment.

Windham Weaponry Barrel Kits contain all necessary parts forward of the receiver - kit descriptions will list exact contents. We also sell barrel "sub-assemblies", that are basically the barrel only with necessary parts that enable the home gunsmith to economically replace a worn barrel or change a barrel configuration utilizing their existing handguards, flash hiders, etc.

MPC 16" Barrel Kit - \$245.00

Part# KIT-BA16M4

This premium Barrel Kit from our "MPC" Rifle - 16" in length, turned with the M4 profile, includes all parts forward of the Upper Receiver including Barrel Extension (with M4 Feed Ramps), Barrel Nut, Delta Ring, Weld Spring, Snap Ring, Gas Tube, Gas Tube Spring Pin, M4 Double Heatshield Handguards, Front Handguard Cap, A2 Standard Sight Base with Sling Swivel, Front Sight Post, Front Sight Detent, Bayonet Lug and A2 Flash Hider with Crush Washer. Machined from 4150 Chrome Moly Vanadium 11595E Steel, Chrome lined in bore and chamber, and Black Manganese Phosphate finished for protection against rust and corrosion. Button rifled 1 turn in 9 inches - right hand twist for optimum accuracy with a wide range of .223 / 5.56mm ammunition.

MPC 16" Barrel Sub-Assembly - \$215.00

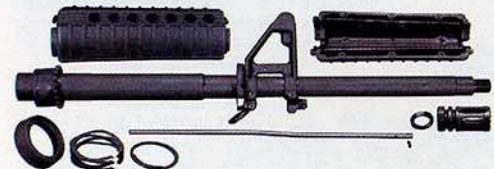

Part# BA16M4

This M4 profile sub-assembly is perfect for replacing an old, worn or inaccurate barrel. Machined from 4150 Chrome Moly Vanadium 11595E Steel, chrome lined for long wear and easy cleaning, button rifled 1 turn in 9" (RHT). The Black Manganese Phosphate finish protects against rust and corrosion. Includes Barrel with M4 feed ramps, Front Sight Base (installed with Front Sight Post, Detent, Detent Spring, Sling Swivel and Rivet), Barrel Nut, and Handguard Cap.

HBC 16" Heavy Barrel Kit - \$235.00

Part# KIT-BA16HB

Our highly accurate 16" Heavy Barrel Kit includes all parts needed for complete assembly. Machined from 4150 Chrome Moly Vanadium 11595E Steel with a Chrome lining for long wear and easy cleaning, this Heavy Profile barrel is .950" diam. under the handguards, and .745" straight from the sight base forward. Button rifling is 1 turn in 9" (RHT), and finished in Black Manganese Phosphate for protection against rust and corrosion. Includes the Barrel Sub-Assembly with M4 feed ramps, M4 Dual Heatshield Handguards, Delta Ring, Weld Spring, Snap Ring, Gas Tube, Gas Tube Spring Pin, Crush Washer, and A2 Birdcage Flash Hider.

HBC 16" Barrel Sub-Assembly - \$205.00

Part# BA16HB

In Heavy Profile under the handguard area, and turned straight from the sight base forward to the threaded muzzle, this sub-assembly makes a great replacement or part of your new rifle build. 4150 Chrome Moly Vanadium 11595E Steel with a chrome lining and button rifling (1 turn in 9" RHT). Finished in Black Manganese Phosphate for protection against rust and corrosion. This Barrel Sub-Assembly includes Barrel with M4 type feed ramps, Front Sight Base (installed with Front Sight Post, Detent, Detent Spring, Sling Swivel and Rivet), Barrel Nut, Handguard Cap and Threaded Muzzle.

Barrel Kits / Barrels / Barrel Parts

Windham
Weaponry

SRC 16" Barrel Kit

\$255.00

Part# KIT-BA16M4FT

Highly accurate, and light weight, these components are from our "SRC" Rifle - similar to the 16" MPC barrel but with a Picatinny Rail Gas Block attached (using taper pins). Mount a variety of accessory front sights on it or, leave it "bare" if you intend to use a scope. 4150 Chrome Moly Vanadium 11595E Steel with Chrome lining in bore and chamber for long wear and ease of cleaning, Black Manganese Phosphate finished. Button rifled 1 turn in 9" (RHT), for optimum accuracy with a wide range of .223/5.56mm ammo. This kit includes Barrel Extension (with M4 Feed Ramps), Barrel Nut, Delta Ring, Weld Spring, Snap Ring, Gas Tube, Gas Tube Spring Pin, M4 Double Heatshield Handguards, Handguard Cap, Picatinny Rail Gas Block with Sling Swivel, Bayonet Lug and A2 Flash Hider with Crush Washer.

SRC 16" Barrel Sub-Assembly - \$225.00

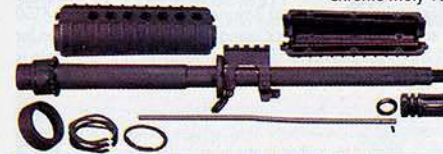

Part# BA16M4FT

This Sub-assembly from our SRC Rifle has the M4 profile with a taper pin mounted Picatinny Rail Gas Block. Barrel material is 4150 Chrome Moly Vanadium 11595E Steel, and it is chrome lined in both Bore and Chamber for long wear and ease of cleaning. Button rifled 1 turn in 9" - Right Hand Twist - for optimum accuracy with a wide range of .223 / 5.56mm ammunition. Black Manganese Phosphate finished, includes the Barrel Extension (with M4 Feed Ramps), Barrel Nut, Handguard Cap, Picatinny Rail Gas Block with Sling Swivel, and Bayonet Lug. Muzzle is threaded 1/2" x 28 T.P.I. to accept a variety of flash hiders or muzzle brakes.

SRC 16" Heavy Barrel Kit

\$245.00 - Part# KIT-BA16FT

This Kit is much the same as the SRC M4 Kit above but substitutes the 16" Heavy Profile Barrel. Includes a taper pinned Picatinny Rail Gas Block. 4150 Chrome Moly Vanadium 11595E Steel with chrome lining in Bore and Chamber - button rifled 1 turn in 9" (RHT) - Black Manganese Phosphate finished. Includes the Barrel Extension (with M4 Feed Ramps), Barrel Nut, Delta Ring, Weld Spring, Snap Ring, Gas Tube, Gas Tube Spring Pin, M4 Double Heatshield Handguards, Handguard Cap, Picatinny Rail Gas Block with Sling Swivel, Bayonet Lug and A2 Flash Hider with Crush Washer. Muzzle is threaded 1/2" x 28 T.P.I.

SRC 16" Heavy Barrel Sub-Assembly

\$215.00 - Part# BA16FT

This SRC Heavy Barrel Sub-Assembly has a Picatinny Rail Gas Block (with Sling Swivel) properly mounted with taper pins, is button rifled 1 turn in 9" (RHT) and Black Manganese Phosphate finished. Includes Barrel Extension (with M4 Feed Ramps), Barrel Nut, Handguard Cap, and Bayonet Lug. Muzzle is threaded 1/2" x 28 T.P.I. to accept a variety of flash hiders or muzzle brakes.

VEX-SS 20" Stainless Steel Barrel Kit - \$415.00 - Part# KIT-BA20FSS

Our highly accurate Varmint Extremator Barrel includes all parts forward of the upper receiver. Precision machined of 416R Stainless Steel and button rifled 1 x 8" (RHT) for optimum accuracy with a wide range of heavier .223 varmint bullets. Matte finish reduces reflection, fluting keeps weight to a minimum, increases barrel surface heat loss and adds rigidity. A matched Carpenter 158 Steel Bolt is mated to the Compass Lake specification chamber for utmost accuracy. A Picatinny Rail Gas Block with set screws is included should you want to mount a front sight. A rifle length gas tube, gas tube spring pin, and our 6061 machined aluminum Free-Float Forend with specialized barrel nut, rear knurled locking ring and sling swivel / bipod stud are also included.

VEX-SS 20" Barrel Sub-Assembly - \$340.00

Part# BA20FSS

Our Stainless VEX Barrel Sub-Assembly from above with Carpenter 158 Steel Matched Bolt mated to the Compass Lake specification Chamber for highest possible accuracy. Matte finish avoids varmint spooking glare, and fluting reduces weight, increases barrel surface heat loss. A Picatinny Rail Gas Block with set screws is included for front sight attachment. Button rifling is 1 turn in 8" (RHT) for optimum accuracy with a wide range of heavier .223 Rem. varmint bullets. Though chambered for .223, this barrel is perfectly safe to fire 5.56mm ammo.

A2 Government Profile 20" Barrel Kit - \$245.00

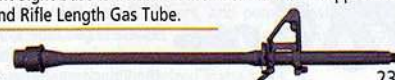

Part# KIT-BA20GVT-7

This A2 Gov't. profile barrel kit - with all parts forward of the Upper Receiver - is ready for your next target or varmint hunting build. The highly accurate 20" barrel is chrome lined and machined from 4150 Chrome Moly Vanadium 11595E steel is rifled 1 x 7" RHT. A standard A2 Front Sight Base is fitted. Kit includes A2 Flash Suppressor, Barrel Nut, Crush Washer, Rifle Length Handguards, Delta Ring Kit and Rifle Length Gas Tube.

A2 Gov't. 20" Barrel Sub-Assembly - \$215.00

Part# BA20GVT-7 Includes A2 Front Sight Base and Barrel Nut.

Barrel Kits / Barrels / Barrel Parts

Windham
Weaponry

WINDHAM WEAPONRY "SHORT" BARRELS... NOTICE: These parts must be used in - or with - a Title II Receiver (NFA Registered) for legality as required in accordance with Title 27 Code of Federal Firearms Regulations [Subpart B-Definitions (479.11) (a) thru (g) under Firearms]. For any questions the Alcohol, Tobacco, & Firearms Bureau (local listings available at: <http://www.atf.gov/>). A "short" barrel is any barrel less than 16" in length used on a rifle. These can only be used on weapons registered as a full-auto, or legal short barreled rifle. Our Law Enforcement Sales Manager may be able to answer other questions regarding this BATF restriction.

14.5" Short Barrel Kit \$245.00 Part# KIT-BA14M4-7

This premium 14.5" Short Barrel Kit has the M4 profile (designed for mounting a grenade launcher) and must be used with a Title II receiver. It includes all parts forward of the Upper Receiver: Barrel Extension (with M4 Feed Ramps), Barrel Nut, Delta Ring, Weld Spring, Snap Ring, Gas Tube, Gas Tube Spring Pin, M4 Double Heatshield Handguards, Handguard Cap, A2 Standard Sight Base with Sling Swivel, Front Sight Post, Front Sight Detent, Bayonet Lug and A2 Flash Hider with Crush Washer. Machined from 4150 Chrome Moly Vanadium 11595E Steel, chrome lined in both bore and chamber, and Black Manganese Phosphate finished for protection against rust and corrosion. This barrel is button rifled 1 turn in 7" - right hand twist (RHT) to stabilize bullets from 50 to 77 grains.

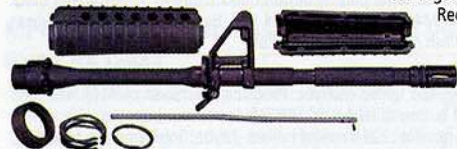

14.5" Short Barrel Sub-Assembly - \$215.00 - Part# BA14M4-7

This short M4 Barrel - 14.5" in length - has the M4 turning for mounting a grenade launcher, and the barrel extension has the M4 style feed ramps. Also included are the Barrel Nut, Front Handguard Cap, A2 Standard Sight Base with Sling Swivel, Front Sight Post, Front Sight Detent, and Bayonet Lug. Machined from 4150 Chrome Moly Vanadium 11595E Steel, chrome lined in both Bore and Chamber, and Black Manganese Phosphate finished for protection against rust and corrosion. Button rifled 1 turn in 7" (RHT) to stabilize bullets from 50 to 77 grains Muzzle is threaded 1/2" x 28 tpi to accept a variety of flash hiders or muzzle brakes.

WINDHAM WEAPONRY "COMPLIANT" BARRELS... Have permanently affixed A2 birdcage style compensators that make them legal for sale in the States of New York / New Jersey / Massachusetts and Connecticut. The compensator is pinned on, and then welded over before finishing. Attempted removal will destroy the muzzle.

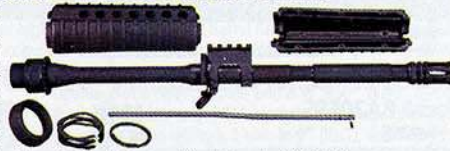

MPC 16" Compliant M4 Barrel Kit \$275.00 - Part# KIT-BA16M4-PB

Similar to our "MPC" Barrel Kit with exception of a permanently affixed A2 birdcage style compensator to comply with CT, MA, NJ and NY regulations. M4 profile turned with all parts forward of the Upper Receiver: Barrel Extension (with M4 Feed Ramps), Barrel Nut, Delta Ring, Weld Spring, Snap Ring, Gas Tube, Gas Tube Spring Pin, M4 Double Heatshield Handguards, Handguard Cap, A2 Standard Sight Base with Sling Swivel, Front Sight Post and Front Sight Detent. 4150 Chrome Moly Vanadium 11595E Steel, chrome lined bore and chamber, Black Manganese Phosphate finish. Button rifled 1 in 9" (RHT).

SRC 16" Compliant M4 Barrel Kit - \$285.00 - Part# KIT-BA16M4FT-PB

With its permanently affixed A2 birdcage style compensator (complies with CT, MA, NJ and NY regulations), this "SRC" barrel features a Picatinny Rail Gas Block (taper pin attached) for mounting accessory front sights, or leave it "bare" if you intend to shoot with a scope or optics. M4 profile with all parts forward of the Upper Receiver. Machined from 4150 Chrome Moly Vanadium 11595E Steel, chrome lined in bore and chamber and Black Manganese Phosphate finished. Button rifled 1 turn in 9" (RHT).

ALSO AVAILABLE: 14.5" M4 Barrel Kit with A2 Extended "Birdcage" Flash Hider - \$275.00 Part# KIT-BA14M4-7-A2X - All parts forward of Receiver, Rifled 1 x 7, Pinned & Welded Extended Birdcage, 16" overall.
14.5" M4 Barrel Kit with Phantom Flash Hider - \$275.00 - Part# KIT-BA14M4-7-PHAN5C2 - All parts forward of Receiver, Rifled 1 x 7, Pinned & Welded Phantom, 16" overall legal length.
14.5" M4 Barrel "Only" with A2 Extended "Birdcage" Flash Hider - \$245.00 - Part# BA14M4-7-A2X
14.5" M4 Barrel "Only" with Phantom Flash Hider - \$245.00 - Part# BA14M4-7-PHAN5C2

Windham Weaponry Picatinny Rail Gas Block \$59.95 - Part# KIT-PICBLOCK

Windham Weaponry has developed a solid steel Gas Block with an integral Picatinny Rail to allow mounting the accessory front sight of your choice, or leave it "bare" if you choose to shoot with a scope or optics. Replaces your existing 3/4" internal diameter front sight/gas block. Slip on fit is then tightened with supplied set screws. It has a pre-drilled gas path hole, gas tube hole and gas tube spring pin hole, and includes the Windham Weaponry "WW" machined into the front face. This rugged unit is machined from solid billet stock, bead blasted, and then black manganese finished for a durable non-reflective surface.

Barrel Parts

Windham
Weaponry

Low Profile Gas Block - \$45.00 - Part# GB-LOPRO-2U These quality machined steel Gas Blocks are lightweight, strong and small enough to use with almost any handguard. Mounted with set screws on the bottom (if your barrel has no corresponding "dimples", some drilling/gunsmithing may be required). Use Green Loctite on the gas block, and Red Loctite on the set screws when installing. This gas block will fit on .750" diameter barrels. Black phosphate finished - made in the U.S.A.

Front Sight Parts Due to the difficulties of retro-fitting the A2 Front Sight Bases to barrels, Windham Weaponry does not sell this part. All other A2 Front Sight parts are available.

A2 Square Front Sight Post \$4.95 - Part# 9349056

A2 Square Front Sight Post - .260" in height / .070" wide. Black manganese phosphate finished steel. Fits standard A2 Front Sight Base.

A2 Square Front Sight Post - .040" Taller Height \$4.95 - Part# 9349056-MOD

The .040" taller Sight Post is required in the A2 Standard Front Sight Base when used with a Colt A4 Removable Carry Handle. It's also needed with the Diamondhead RS-10001 Rear Flip Sight. Quality gun steel - finished in black manganese phosphate.

Front Sight Post Detent \$0.95 - Part# 8448573

This machined steel Detent engages the notches on the Sight Post to lock it at the desired height when sighting in your rifle.

Front Sight Post Detent Spring \$0.50 - Part# 8448574

Provides pressure for the Front Sight Post Detent to hold the Sight Post in position. High tensile strength spring steel.

Front Sight Taper Pin \$0.95 - Part# 8448575

The correct way to affix a Front Sight Base to a barrel - two required. Tapered machined steel with black phosphate finish.

Front Sling Swivel & Rivet Rivet - \$0.95 - Part# 8448697 Swivel - \$2.95 - Part# 8448571

AR15/M16 standard front sling swivel for the front sight base. Black phosphated steel with rubberized coating for quiet operation. The 1/8" x 7/16" black rivet is specifically sized to fit the A2 Front Sight Base.

Round Handguard Cap for .75" Bbl. \$2.95 - Part# HCAP-RDHVY

The Handguard Cap locks the front of the carbine handguards onto the barrel so they won't rotate or rattle. Stamped steel, with gas tube hole - black manganese phosphate finish.

Gas Tubes for AR15/M16 Rifles & Carbines... Rifle Length (20" + Bbl.) \$11.95 - Part# 8448567 CAR Length \$11.95 - Part# 1005-914-3504

High quality stainless steel - drilled with gas and spring pin holes, designed to function perfectly in any AR15/M16. Choose the length to fit your barrel.

Gas Tube Spring Pin 5/64" x 5/16" \$0.50 - Part# MS16562-106

A2 Flash Hider for AR15/M16 \$6.95 - Part# 9349051

Standard A2 "Birdcage" Flash Hider with five venting slots on top and sides. Bottom is closed to avoid a dust signature when shooting prone. High quality steel, threaded 1/2" x 28 T.P.I., with Black Phosphate finish. This Flash Hider should be installed with a Crush Washer for proper "timing" (positioning) of gas venting slots.

The Crush Washer is sold separately here:

A2 Birdcage Type Muzzle Brake \$59.95 - Part# MB-A2-PB

Patterned after the standard A2 Birdcage, it fits standard thread AR15/M16 barrels, and should be installed with a crush washer (below) for proper port timing. When pinned and welded on a 16" or longer barrel, it complies with regulations for use in NY, NJ, CT and MA. Machined steel with a black manganese finish.

< A2 Flash Hider Crush Washer - \$2.95 - Part# 12991533

Extended Length A2 "Birdcage" Flash Hider for AR15/M16 - \$35.95 - Part# FS-A2X

This version of the A2 Bird Cage Flash Hider makes a 14.5" barrel a legal length of 16" when pinned and welded over (one hole for pinning and welding located on the bottom), or it can be threaded onto any standard 16" barrel. Threaded 1/2" x 28 T.P.I., with Black Phosphate finish. Overall length is 2 1/4". Should be installed with a Crush Washer for proper port "timing"

Phantom Flash Hider - \$34.00 Part# FH-PHANTOM-5C2

The Phantom controls muzzle flash effectively with five longitudinal vents, and reduces dust signature when shooting prone. The grooved base accepts training attachments and sound suppression devices for LE / military personnel. Threaded 1/2" - 28 t.p.i. - includes a crush washer for proper "timing". High quality steel with black manganese phosphate finish.

Vortex Flash Hider \$59.95 - Part# FH-VORTEX

With specially angled helical flutes, the Vortex effectively hides flash, and aligns exiting barrel gas to improve accuracy. A base ring groove allows integration of Blank Firing Attachments for LE trainers, and permits installation of Smith Enterprise SEI Direct Connect Sound Suppressors. Threaded 1/2" - 28 t.p.i. - no crush washer required. 8620 bar stock - heat-treated and Parkerized matte black.

Lower Receiver Parts / Parts Kits

Windham
Weapony

WINDHAM WEAPONRY does not sell Lower Receivers separately as the "Lower" is the part of the weapon system that can only be sold to a Federally Licensed Firearms Dealer.

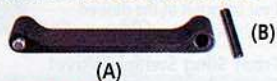

Complete Lower Receiver Parts Kit for AR15 \$68.95 - Part# KIT-LOWER-AR

This complete Windham Weapony Lower Receiver Parts Kit will give you everything needed to build up a stripped Lower, or keep your AR functioning in the toughest conditions. All highest quality parts, this kit includes: AR Hammer with J-Pin; Hammer Spring; AR Safety Selector Lever; Safety Detent; Safety Detent Spring; Bolt Catch; Bolt Catch Spring; Bolt Catch Plunger; Bolt Catch Spring; Magazine Catch; Magazine Catch Spring; Magazine Catch Button; Takedown/Pivot Pin Detents (2); Takedown/Pivot Pin Springs (2); Pivot Pin; Takedown Pin; AR Trigger; Trigger Spring; AR Disconnect; Disconnect Spring; Trigger Guard (Aluminum); Trigger Guard Spring Pin; Hammer/Trigger Pins (2); Pistol Grip; Pistol Grip Screw; Pistol Grip Washer; Buffer Retainer; Buffer Retainer Spring.

Aluminum Trigger Guard Parts Kit for AR15/M16 - \$7.25 - Part# KIT-TRIGGUARD-ALUM

If you broke the old plastic trigger guard on your AR in last winter's cold, or just want to upgrade to the strength and beauty of an aluminum piece, this is the kit. Includes a finely machined black anodized aluminum trigger guard with a spring loaded detent pin already installed. A new steel 1/4 X 5/8 spring pin is included.

Aluminum Trigger Guard Only for AR15/M16 (A) \$6.95 - Part# 8448587

Trigger Guard Spring Pin Only for AR15/M16 (B) \$0.50 - Part# MS16562-129

Magpul Enhanced Trigger Guard - \$19.95 - Part# 8448587-MP-ENHANCED

This black anodized aluminum drop-in replacement for the AR15/M16 weapons platform features a shallow "V" shape for better use with gloves in tactical shooting or cold weather. It is non-folding, has rounded edges, and fills the annoying "gap" at the rear of the standard trigger guard. Mounting hardware - a spring pin and special long allen head screw is included.

Fire Control Parts Kit for AR15 - \$44.95 - Part# KIT-FIRECONTROL-AR

Here are all the critical Windham Weapony Fire Control Parts Kit necessary to keep your AR range-ready. Highest quality parts includes: AR Hammer with J-Pin; Hammer Spring; AR Safety Selector Lever; AR Trigger; Trigger Spring; AR Disconnect and Disconnect Spring. Essential spares for all emergencies.

AR15 Hammer with J-Pin Only (A) \$15.95 - Part# 9349110-AR

AR15 Hammer Spring Only (B) \$1.50 - Part# 8448611

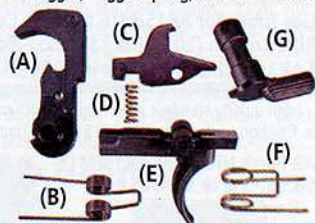

AR15 Disconnect Only (C) \$5.95 - Part# 8448635-AR

AR15 Disconnect Spring Only (D) \$0.50 - Part# 8448594

AR15 Trigger Only (E) \$12.95 - Part# 8448592-AR

AR15 Trigger Spring Only (F) \$0.95 - Part# 8448593

AR15 Safety Selector Only (G) \$9.95 - Part# 9381367-AR

POF Ambidextrous Safety for AR15/M16 - \$24.95 - Part# AMBI-SFTY-AR

Through our partnership with Patriot Ordnance, we can now offer their high quality Ambidextrous Safety. These black nitride finished steel parts are machined to close tolerances for crisp operation from either side of the receiver. An easy installation for any AR15 or M16 that will enhance the safe handling of your rifle. Made in U.S.A.

Safety Selector Detent for AR15/M16 - \$0.95 - Part# 8448631

Safety Selector Detent Spring for AR15/M16 - \$0.50 - Part# 8448516

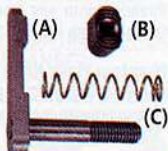

Magazine Catch Parts Kit for AR15/M16 - \$7.95 - Part# KIT-MAGCAT

Use these new Windham Weapony parts to replace a worn or malfunctioning mag catch on your rifle - a black phosphate finished Magazine Catch with a black anodized aluminum Magazine Catch Button and a new, high tensile strength coil spring - easily installed to properly retain the magazine.

Magazine Catch for AR15/M16 Only (A) \$4.95 - Part# 8448638

Magazine Catch Button Only (B) \$3.50 - Part# 8448636

Magazine Catch Spring Only (C) \$0.50 - Part# 8448637

Hammer/Trigger Pins for AR15 - \$1.25 ea. - Part# 8448609

These black phosphate finished, machined Steel Pins hold either the Hammer or Trigger within the Lower Receiver. Two are required per rifle (sold individually). The same part and part number is used for both applications.

Lower Receiver Parts / Parts Kits

Windham
Weapony

Buffer Retainer for AR15/M16 (A) - \$1.50 ea. - Part# 8448582

Buffer Retainer Spring for AR15/M16 (B) - \$0.50 - Part# 8448583

These parts keep the Buffer (or "Action") Spring within the Receiver Extension. See Schematic on Pgs 20/21 for location.

Takedown Pin for AR15/M16 (A) - \$3.95 - Part# 8448584

The Take Down Pin locks the Upper & Lower Receivers together, and is held "captive" within the Lower by its spring tensioned detent to avoid loss. Machined steel with black phosphate finish.

Pivot Pin for AR15/M16 (B) - \$3.95 - Part# 8448621

The black phosphate finished steel Pivot Pin acts as the "hinge" between the Upper and Lower and is locked within the Lower Receiver by its spring tensioned detent to avoid loss.

Takedown & Pivot Pin Detent for AR15/M16 (C) \$0.50 - Part# 8448585

Takedown & Pivot Pin Detent Spring (D) \$0.50 - Part# 8448586

Two Detents and two Detent Springs are required in the Lower Receiver - the same respective parts are used for both applications. They help retain and position both the Take Down & Pivot Pins in the Lower Receiver.

Bolt Catch Parts Kit for AR15/M16 - \$9.95 - Part# KIT-BOLT-CAT

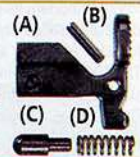

These high quality Windham Weapony parts will restore your rifle's Bolt Catch operation to new standards. Steel Bolt Catch, and Bolt Catch Plunger are in black phosphate finish, and the high tensile strength Bolt Catch Plunger Spring and new Steel Spring Pin will provide long life.

Bolt Catch for AR15/M16 Only (A) \$7.95 - Part# 8448628

Bolt Catch Spring Pin Only (B) \$0.50 - Part# MS16562-119

Bolt Catch Plunger Only (C) \$1.95 - Part# 8448634

Bolt Catch Plunger Spring Only (D) \$0.50 - Part# 8448633

A2 Pistol Grip Parts Kit for AR15/M16 - \$6.50 - Part# KIT-PISTOLGRIP-A2

This standard A2 Black Pistol Grip features checkered side panels, forward finger ridge and serrated back strap. Molded from a Nylon 6/6 resin enhanced to improve toughness, impact resistance and heat stability, the grip mounts easily onto the Lower Receiver with a black phosphated Allen Head Pistol Grip Screw and External Tooth Lock Washer (supplied). Use a long 3/16" Allen wrench for installation.

A2 Black Plastic Pistol Grip Only (A) \$5.95 - Part# 9349127

A2 Pistol Grip Screw Only (B) \$0.95 - Part# AN501D416-18

A2 Pistol Grip Toothed Washer Only (C) \$0.50 - Part# MS53335-61

Most Wanted Parts Kit for AR15/M16 - \$14.95 - Part# KIT-MOSTWANTED

A Kit of all those critical little parts that seem to go missing when you're working on your rifle - the ones that pop out of sight under the bench - disappear somewhere into the toolbox - you know what we mean. Included in the "Most Wanted Kit" are: Pivot Pin Detents (4); Pivot Pin Detent Springs (4); Safety Detents (2); Safety Detent Springs (2); Firing Pin Retaining Pins (2); Buffer Detents (2); Buffer Detent Springs (2); Extractor Springs (2); Extractor Spring Inserts (2); Extractor O-Rings (2). Never be troubled by the loss of critical "Most Wanted Parts" again!

Field Repair Kit for AR15/M16 - \$34.95 - Part# KIT-FIELDREPAIR

This Kit is designed to provide every part you would need to keep your rifle fully functional in the field. All are top quality Windham Weapony parts including: M16 Firing Pin; a Firing Pin Retaining Pin; Bolt Cam Pin; Extractor Cartridge; Extractor Pin; Extractor Spring; Extractor Spring Insert; Extractor O-Ring; a set of 3 Bolt Gas Rings; Hammer and Trigger Springs; Disconnect Spring; Hammer and Trigger Pins; a Front Sight post (taller .040" height); an A1/A2 Front Sight Adjusting Tool and a CP-02 Chamber Plug/Safety Tool. Keep your rifle firing - never be without this kit of critical parts!

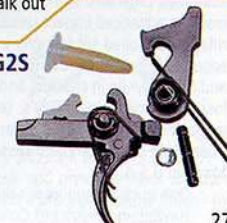

POF Drop In Trigger/Hammer Assembly for AR15 - \$199.95 - Part# 8448592-1STAGE

This high quality assembly from Patriot Ordnance easily drops into your receiver to replace the existing trigger, hammer, disconnect and springs. The black nitride finished steel components are permanently assembled into a red anodized block of solid aircraft aluminum to offer a crisp single stage trigger pull and durable longevity. Average "pull weight" of this trigger assembly is 4.5 to 5 lbs., and included with the kit are a hammer and trigger pin and "lock plates" that mount on the outside of the lower receiver. The supplied Allen Head screws are Loctite treated so the hammer and trigger pins won't "walk out" under fire. Made in U.S.A.

Geissele 2-Stage Trigger for AR15/M16 - \$165.00 - Part# 8448592-G2S

A complete, High-Quality Trigger System for unique operating environments, the Geissele 2 Stage (G2S) Trigger, semi-auto-only, drops into your AR-15 to give the performance and reliability of Geissele quality triggers at an economical price. Features a 4 1/2 lb. total pull weight, non-adjustable sear engagement, and a 2 1/2 lb. first stage. Made of fine tool steel with wire-EDM cut sear engagement surfaces, and a unique spring clip to retain the hammer pin. A spare hammer pin retainer is included, as well as a container of lubricant. Note that this trigger will not fit "Large Pin" Colt receivers.

Lower Receiver Parts / Parts Kits

Windham
Weapony

CMMG 2-Stage Trigger Kit for AR15/M16 - \$119.95 - Part# 8448592-2STAGE-C

This high quality drop-in trigger/hammer system requires no gunsmithing to give your small-pin AR-15 a rugged, reliable trigger. CMMG custom grinds 10 separate contact surfaces on the trigger, disconnect, and hammer for a crisp, precise, consistent two-stage pull. Each trigger is function tested at the factory, brass bushings reduce friction for an ultra-smooth pull and fast lock time. A rounded, low mass hammer further speeds lock time and reduces wear on contact surfaces, and trigger pull weight is approximately 5 to 7.5 lbs. Manufactured of black oxide finished steel with brass bushings. Standard weight trigger and hammer springs are included, and this kit will work with aftermarket reduced-power springs. The CMMG Two Stage Trigger Kit works with small pin (.154" diameter) AR-15 Rifles and .308 Mk3 Rifles - also functions well in .22 LR conversions.

Magazines / Magazine Accessories

Windham
Weapony

.223/5.56mm 30 Round Magazine for AR15/M16 - \$19.95 - Part# 8448670

The Windham Weapony 30 Rd. Magazine is manufactured to the highest possible standards to offer you the utmost in reliability, performance and durability. They incorporate the best Magpul® Gen III self leveling follower featuring a four way anti-tilt design with spring stabilizers on top of a 17-7 PH stainless steel spring. The 6061-T6 aluminum magazine box is black Teflon® coated inside and outside. A Windham Weapony Logo stamped base plate is removable for cleaning. Made in USA.

Due to state regulations this magazine cannot be shipped to States of CA, CO, CT, MA, MD, NJ, NY, Hawaii and District of Columbia. Parts of Illinois and Indiana also have local restrictions.

.223/5.56mm 20 Round Magazine - \$19.95 - Part# 8448670-20

Like the 30 Round above, the Windham Weapony 20 Rd. Magazine offers reliability, performance and durability. With a Magpul® Gen III self leveling follower, four way anti-tilt design and 17-7 PH stainless steel spring, this 6061-T6 aluminum magazine box is black Teflon® coated inside and outside. A Windham Weapony Logo stamped base plate is removable for cleaning. Made in USA.

Due to state regulations this magazine cannot be shipped to States of CA, CO, CT, MA, MD, NJ, NY, Hawaii and District of Columbia. Parts of Illinois and Indiana also have local restrictions.

.223/5.56mm 10 Round Magazine for AR15/M16 - \$19.95 - Part# 8448670-10

While Windham Weapony 10 Round Magazines and 5 Round Magazines are similar in appearance, they still have all the reliability, performance and durability of their higher capacity brothers. They include Magpul® Gen III self leveling followers, 17-7 PH stainless steel springs, 6061-T6 aluminum boxes with black Teflon® coating inside and out, and a Windham Weapony Logo stamped on the removable base plate for easy cleaning. Made in USA.

.223/5.56mm 5 Rd. Magazine for AR15/M16 - \$19.95 - Part# 8448670-5

Shown at right - same as shipped with our VEX rifles - an excellent hunting magazine.

Magpul PMAG 30 Round Magazine - \$14.95 - Part# 8448670-PMAG

The Magpul PMAG is a 30-round 5.56x45 NATO (.223 Rem.) AR15/M16 compatible magazine. It features an advanced impact resistant polymer construction, a pop-off Impact/Dust Cover for storage, and an easy to disassemble design with a flared floorplate for positive magazine extraction from pouches. The PMAG 30 utilizes a resilient stainless steel spring for corrosion resistance and an anti-tilt, self-lubricating follower for increased reliability. This high quality magazine has been updated with a new body ribbing design which allows for better compatibility with aftermarket mag couplers, and a new follower which provides smoother loading with military stripper clips. Its Impact/Dust Cover can be snapped onto the floorplate when not in use to prevent possible loss. Made by Magpul in the U.S.A.

Due to state regulations this magazine cannot be shipped to States of CA, CO, CT, MA, MD, NJ, NY, Hawaii and District of Columbia. Parts of Illinois and Indiana also have local restrictions.

Magpul PMAG 20 Round Magazine - \$13.95 - Part# 8448670-20-PMAG

The Magpul PMag 20-round polymer magazine for 5.56x45 NATO (.223 Rem.) is constructed from advanced polymers with superior impact resistance and light weight. It fits all AR15/M16 rifles, and features advanced impact resistant polymer construction and a straight body to keep a low profile in the rifle. A controlled-tilt follower keeps ammo feeding consistently, and a high quality stainless steel spring ensures proper tension. Also included is a pop-off Impact/Dust Cover to protect the feed lips from impacts and debris while in storage, and it can be snapped onto the floorplate when not in use to prevent possible loss. The magazine body's textured finish and flared floorplate improved handling over standard magazines - the flared floorplate offers positive magazine extraction from pouches, and the design of the floor plate offers simple disassembly using the impact cover or a punch for cleaning and maintenance. Made in U.S.A.

Due to state regulations this magazine cannot be shipped to States of CA, CO, CT, MA, MD, NJ, NY, Hawaii and District of Columbia. Parts of Illinois and Indiana also have local restrictions.

Magazines / Magazine Accessories

Windham
Weapony

Magpul PMAG 20 Rd .308 Magazine - \$19.95 - Part# 8448670-20-308PMAG

The 7.62x51 NATO (.308 Winchester) PMAG 20 LR/SR GEN M3 is a lightweight, cost effective, high reliability magazine featuring true 20-round capacity, constant-curve body, anti-tilt follower and snap on Impact/Dust Cover. It is molded from advanced polymers with superior impact resistance and light weight (less than half the weight of standard steel magazines). A controlled-tilt follower keeps ammo feeding consistently, and a high quality stainless steel spring ensures proper tension. Also included is a pop-off Impact/Dust Cover (not shown in this photo but similar to .223 mag previous page) to protect the feed lips from impacts and debris while in storage, and it can be snapped onto the floorplate when not in use to prevent loss. The magazine body's textured finish and flared floorplate improved handling over standard magazines - the flared floorplate offers positive magazine extraction from pouches, and the design of the floor plate offers simple disassembly using the impact cover or a punch for cleaning and maintenance. Made in U.S.A.

Due to state regulations this magazine cannot be shipped to States of CA, CO, CT, MA, MD, NJ, NY, Hawaii and District of Columbia. Parts of Illinois and Indiana also have local restrictions.

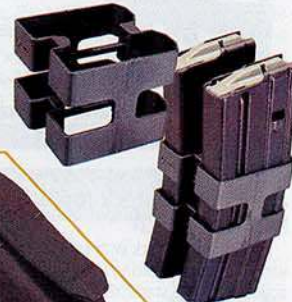

Contact the Windham Weapony Sales Team (1-855-808-1888) for quality 5 and 10 Round .308 magazines for hunting and other general shooting purposes. We will be offering these soon - check www.windhamweapony.com for updates.

Mission First Magazine Coupler for AR15/M16

\$14.95 - Part# MAG-CPLR-MFT

This molded lightweight polymer unit joins two magazines together to increase ammunition capacity. It saves reloading time, and won't scratch or deform magazines. Magazines are held securely by two tightening screws in the center of the unit. Made in the U.S.A by Mission First Tactical. (Magazines shown are not included.)

Blackhawk Telestock Magazine Pouch - \$24.95

Part# MAGPOUCH-TELE-BH-BLK

A high quality Magazine Pouch that is designed to strap onto the Telestock of the M4 type Carbine, this Blackhawk Buttstock Mag Pouch features an adjustable closure flap and accommodates 20 or 30 Round magazines. Sewn of heavy, 1000 denier abrasion resistant nylon and webbing, its dimensions are 3"W x 4 1/8"H x 1"D.

(The magazine shown in the photo is not included.)

LULA Magazine Loader/Unloader for AR15/M16 - \$28.95

Part# LULA-AR15

The fastest, most comfortable method of loading the AR15 and M16 .223 Rem. / 5.56mm NATO Mil. Spec. Magazine available, the LULA Magazine Loader and Unloader is a mil-spec tool molded of polymer and manufactured by Maglula Ltd. to Israeli military specifications. The toggle lever on top engages the magazine follower, so rounds slide in and out effortlessly - no finger or mag abuse. Slips on and off your magazine with ease. Works with U.S. Mil. Spec. steel or aluminum body magazines including OrLite, Thermold, MagPul PMag and CMag (not compatible with the Beta C-Mag).

Buttstocks & Buttstock Parts

Windham
Weapony

Complete 6 Position Telestock Kit for AR15/M16 \$74.95 - Part# KIT-TELESTK

This high quality Telestock Kit includes the Stock with molded-in W-W logo and Locking Latch, 6 Position Receiver Extension, the Locking Nut and Positioning Plate, Rear Sling Loop, high tensile strength Action Spring, and standard CAR Buffer with aluminum body and solid weights.

CAR Length Buffer Spring Only (A) - \$3.95 - Part# 9390022

A high tensile strength spring steel Carbine Length Buffer Spring sized to fit within any M4 type carbine length buffer tube. It provides the resilience to push the Buffer and Bolt Carrier forward in the action cycle while at the same time dampening the recoil.

Carbine Buffer Only (B) - \$12.95 - Part# 1005-914-4578 2.96 oz.

Telestock Locking Nut Only (C) - \$5.95

Part# 9390020 Machined steel with black phosphate finish. Tighten with Armorer's Wrench to avoid damage - see Gunsmithing Section in this catalog.

Telestock Plate Only (D) \$4.95 - Part# 9390021

Correctly positions Telestock and prevents stock rotation. Stamped & machined steel with a black phosphate finish - for all AR15 or M16s.

Buttstocks & Buttstock Parts

Windham
Weaponry

Ambidextrous Telestock Endplate for AR15/M16 - \$9.95 - Part# ENDPL-AMBI

A quality replacement endplate for standard telestocks offering solid mounting points on either left or right side of the carbine for single point or other tactical slings. Made of stamped steel with black manganese phosphate finish. An easy installation on your carbine by swapping out with existing endplate.

Rubber Telestock Buttpad - \$9.95 Part# BUTTPAD-6POS

Makes the telestocked Carbine more comfortable and "non-slip" at the same time. This molded rubber buttpad is designed to fit most 6 position telestocks with a simple slip-on fit. Black rubber, made in the U.S.A.

Heavy Carbine Buffer \$24.95 - Part# 8448730B-M

Slows the cycling rate of the action in the AR15/M16 for improved reliability and reduced recoil. These H-Buffers are marked with an H on the end. Weigh is 3.76 oz.

Nonadjustable Tele-Style Stock Kit for use in States of NY, NJ, CT, MA - \$74.95 - Part# KIT-TELESTK-FIXED

This kit contains all the "Telestock" parts in a Fixed Length version to comply with regulations in NY, NJ, CT & MA. It installs just like a regular telestock. Includes the Receiver Extension, Locking Nut and Receiver End-plate, Rear Sling Loop, a stainless steel Action Spring, and a CAR Buffer with aluminum body and solid weights.

Rifle Length Buffer Tube - \$22.95 - Part# 8448581

A standard AR15 / M16 specification for those switching out from a Telestock. Same as used in our A2 Solid Buttstock Kit or the Skeleton Stock Kit.

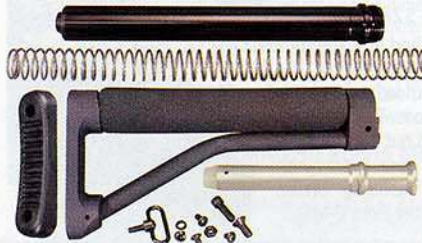

A2 Solid Buttstock for AR15/M16 - \$79.95 Part# STK-STDKIT

This A2 solid stock with storage compartment is great for building a varmint rifle or replacing a telestock. Includes a rifle length stainless steel action spring, a standard buffer, the A2 standard receiver extension, an A2 stock spacer and screw (not shown in photo), rifle length buffer tube, and "trapdoor" stock with serrated buttplate and sling loop.

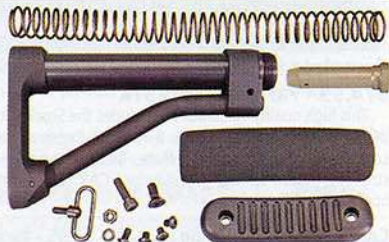

Rifle Length Skeleton Stock Kit for AR15/M16 - \$119.95 Part# STK-SKELKIT

Comfortable and lightweight, this rifle length stock kit will replace your telestock or standard stock and includes all necessary parts from the receiver back. A neoprene sleeve offers a great cheekweld for left or right handed shooter, and the sling swivel can be mounted forward on either side, or at the bottom of the buttplate frame. A molded rubber buttplate absorbs recoil and won't slip on your shoulder.

CAR Skeleton Stock Kit for AR15/M16 \$119.95 - Part# STK-SKELKIT-CAR

A carbine version of the Ace Skeleton Stock. A rugged aluminum and tubular steel frame mounts to the CAR length aluminum receiver extension and a high density neoprene foam tube slips over the black anodized receiver extension to offer a comfortable cheek weld for left or right handed shooters. Includes molded rubber buttpad, sling swivel (mounts forward ambidextrously or at the bottom of the buttplate frame), quality CAR Buffer and Buffer Spring. Complete with kit assembly instructions - Made in U.S.A.

Mission First E-Volv (E2) Telestock Cheekpiece \$34.95 - Part# STK-CKPIECE-MFT

The Mission First Tactical E-Volv (E2) Telestock Cheekpiece offers a solid cheekweld for either right or left-handed shooters, and includes two removable battery "sleds" (compartments). Mounting components feature a Sling Slot, and QD Sling Mounting Point, to allow attachment of various tactical slings. Also included are 2 sets of screws and an Allen Wrench for installation. Molded of lightweight polymer - made in the U.S.A. Faded telestock image shows cheekpiece as mounted (telestock is not included).

Buttstocks & Buttstock Parts

Windham
Weaponry

Mission First BULS Telestock for AR15/M16 \$124.95 - Part# STK-BULS-BLK

Mission First Tactical's BULS - Battlelink™ Telestocks offer features that will make your old tele obsolete. Its a slide-on replacement for any 1.168" diam. commercial buffer tube and offers quick target acquisition, reduced operator strain and accurate shot placement. An angled rubber buttpad makes for quick shouldering of the weapon - even with body armor on. Two Q.D. sling mounting points afford flexible attachment of any type of sling. The buttpad flips down to open a waterproof battery / small parts compartment fitted with customizable quiet foam storage block with a quick access tab. The BULS stock is molded from reinforced, super tough polyamide from DuPont's Military Plastic Division. Made in U.S.A. by Mission First Tactical.

Magpul MOE Adjustable Stock - \$59.95

Part# STK-MOE-BLK The Magpul MOE (Magpul Original Equipment) Stock is designed to provide a high-quality, economical alternative to standard weapon parts. The MOE line distinguishes itself with simplified features, but maintains Magpul's engineering and material quality. The MOE Stock is a drop-in replacement for AR15/M16 carbines using commercial-spec sized receiver extension tubes. Designed for light, fast action, the streamlined A-frame profile avoids snagging and shields the release latch to prevent accidental activation. An extended 0.55" rubber butt-pad is included to provide positive shoulder purchase, and accommodates the longer, slanted back common to most commercial-spec tubes. Made in U.S.A.

Windham
Weaponry

ERGO SureGrip for AR15/M16 - \$26.95 - Part# 9349127-ERGO-AMBI

This comfortable, ambidextrous, ergonomically designed replacement grip for the AR15/M16 features smooth finger grooves, an upper rear extension that supports the web of your hand, and a superior textured finish that minimizes slip with either bare or gloved hands. The Suregrip has an overmolded rubber surface to offer a little "give". An interior storage compartment offers space for small parts or tools, and is sealed with a molded rubber grip plug. A bonus feature is the Ergo "Gapper" - included to fill the gap between the receiver (at the rear of the trigger guard) and the grip to offer knuckle cushioning and a more finished look to your rifle. Installation utilizes your existing grip screw and washer. Made in the U.S.A.

ERGO Tactical Deluxe Pistol Grip - \$59.95 - Part# 9349127-ERGO-TAC

With it's unique "palm shelf", this comfortable, ambidextrous grip offers smooth finger grooves and a heavier tactical design with rear upper hand web support. Its highly textured finish minimizes slippage for bare or gloved hands and the palm shelf (adjustable for height) stabilizes your grip for improved trigger pull, rifle control and accuracy. The Tactical Deluxe grip is molded of material that is virtually impervious to oils and solvents - made in the U.S.A.

Magpul MOE Pistol Grip for AR15/M16 - \$20.95

Part# 9349127-MOE-BLK Tactile comfort, and durability in a quality economical, easily installed upgrade for the standard AR15/M16/M4 pistol grip - the ergonomic design combines aggressive texturing with storage core capability. Rugged one-piece reinforced polymer construction provides durability, and the MOE Grip accepts optional storage cores for gear stowage. A basic grip cap is included as well as all mounting hardware. Made in the USA by Magpul.

Mission First Tactical Engage™ Pistol Grip - \$34.95

The MFT Engage Pistol Grip provides ergonomic **Part# 9349127-MFT-ENGAGE** comfort for any hand with a set of 6 panels for front and rear that vary the number of finger swells and the thickness of the backstrap for a custom fit. The grip core includes a watertight storage compartment with foam storage block to diminish parts rattle. Molded extensions cover that uncomfortable "receiver gap". Made in the USA, and designed for the M16/M4/AR15/HK416. Manufactured by Mission First Tactical with lifetime warranty.

< Hogue Overmolded Pistol Grip - \$23.95 - Part# 9349127-HOGUE

Hogue Beavertail Pistol Grip - \$24.95 - Part# 9349127-HOGUE-308 > With palm swells, finger grooves and soft rubber molded over a durable fiberglass core, the Hogue Overmolded Pistol Grips improve the comfort of your rifle like no other accessory grip. Its an easy replacement for the standard grip, and the unique texture ensures a solid, non-slip grip under any conditions. We use the grip at left on our VEX rifles, and the "Beavertail" model at right on our new .308 - it's a bit better for bigger hands. Both work well on either platform. Made in USA.

Stark Pistol Grip with Hook Sling Mount for AR15/M16 - \$49.95 - Part# 9349127-SE-2-HOOK

The Stark SE-2 is the first AR-15 pistol grip to integrate an ambidextrous sling mount. The Hook Mount is compatible with most common sling hooks, and is located above the hand and below the buffer tube. The a low profile design stays out of the way of even fully collapsed M4-style stocks. The design of the SE-2 enhances weapon ergonomics and functionality, bringing M16, M4 and AR-15 style weapons to a higher level of control and comfort. The grip has been designed for a wide range of hand sizes and shooting demands. Features include a smooth integral trigger guard to increase comfort, textured surface for added grip, and a rubber base plug storage compartment for batteries or other equipment. It is resistant to weather extremes and chemical exposure and abuse. Made in the USA.

Stark Pistol Grip with Quick Detach Sling Mount for AR15/M16 - \$49.95

Part# 9349127-SE-2-QD The Stark model incorporates an integrated ambidextrous sling mount as well as its smooth integral trigger guard. The Quick Detach Mount socket is compatible with most QD Sling Mounts. Extensive strength testing has been performed on the SE-2 to ensure an attachment point that you can depend on. The grip has been designed for a wide range of hand sizes and shooting demands. The integral trigger guard increases comfort, the textured surface provides a non-slip grip, and a rubber base plug storage compartment is designed for batteries or other equipment. It is resistant to weather extremes and chemical exposure and abuse. Made in the USA.

Stark Express Vertical Forward Grip for AR15/M16 - \$29.95 - Part# VGRIP-SE-EXPRESS

Designed for shooters who train and operate with the support hand forward on the hand guard, fore-end or rails, the Stark Express Vertical Grip enables you to better manage recoil as well as move, or "drive" the gun from target to target or engage a moving target more efficiently. The nature of the thumbs forward grip is to evenly distribute the most mass around the circumference of the grip, and allows the user's forearm and hand to remain in a more natural position whether held extended and on-target, or at the low ready position. "Armorsoft Coating" offers a reliable grip, and is comfortable enough to hold during long wait periods, whether in a dynamic threat situations or sport hunting. Resistant to weather extremes, chemical exposure and abuse with a Grip Plug for parts storage inside the grip. This fits standard tactical rails (Picatinny or MIL-STD-1913). Made in the USA.

CAR Double Heatshield M4 Type Handguard

\$19.95 - Part# DS4-HANDGUARD These are the heavy duty, oval shaped M4 Carbine type Handguards, featuring dual aluminum heatshields, and are molded of heavy black plastic. The mirror image design allows either piece to be fitted - top or bottom - on the rifle.

CAR Double Heatshield Fiberglass M4 Type Handguard

\$44.95 - Part# HGD-CARM4-FB Similar in appearance and design to the Handguards shown right, we also offer the "severe duty" version molded of fiberglass that will stand up to the heat of full auto fire. Same oval shaped, M4 Carbine design with dual aluminum heatshields, the heavy fiberglass makes the difference.

Magpul MOE CAR Length Handguard Set for AR15/M16

\$29.95 - HGD-MOE-CAR-BLK Fits any Carbine barreled AR15/M16. Installs into front handguard cap and rear delta ring. Light weight (6.85 oz.), with slots at 2, 6, and 10 o'clock positions to attach optional Picatinny rail sections, and other accessories for mounting tactical lights, slings, grips, etc. Relieved area at the top rear accommodates many overhanging optic mounts. Reinforced, heat-resistant polymer construction with integral aluminum heat shield for durability without the weight of an aluminum rail hand guard. Front extensions and lip protects operator from hot front sight burns. This set is compatible with most piston-driven gas systems.

Mission First Tactical 2-Piece Picatinny Rail Handguard Set

\$124.95 - Part# HGD-MFT-CAR-2PC This 6061 aluminum AR-15 Carbine Integrated Rail Forend System is a drop in, screwless installation - fits the standard delta ring and handguard cap. Four Picatinny Rails provide a secure platform for mounting any accessories. A continuous top rail eliminates the gap between the receiver and rail. Overall length is 7 inches. Finished in hard coat anodize. As this set fits tight, we recommend our handguard removal/installation tool to help with installation (available on our website - Part #HGD-TOOL). Made in the USA, with a Lifetime Warranty from Mission First Tactical.

Diamondhead 2-Piece Aluminum CAR Handguard - \$109.00 - Part# HGD-DH-CAR-2PC

Diamondhead's V-RS Modular Drop-In Handguard platform offers forend versatility for the M4 with almost limitless accessory configuration. The 2 piece design splits horizontally - mounts to delta ring and handguard cap like standard handguards. Add more side rails as additional accessories are needed (see Diamondhead Rails below). Diamond shaped vents (proprietary to this Windham Weaponry version) cool the barrel under rapid fire. The full length upper rail is in Mil. Std. 1913 Picatinny rail dimensions. Construction is durable Type III anodized 6061 T6 aluminum, and it fits all M4/AR15/M16 variants. Made in the U.S.A.

Windham Weaponry Tubular Aluminum

Free-Float Forends for AR15/M16

Rifle - \$74.95 - Part# HGD-ASTD-A

Carbine - \$64.95 - Part# HGD-ACAR-A

These superbly machined, ultralight forend assemblies add a custom look and a comfortable grip to rifle or carbine. 6061 Aluminum tube is knurled and grooved for a solid grip, and slotted vents all around dissipate barrel heat. The tube threads onto the supplied barrel nut which turns onto the Upper Receiver and is drilled for the gas tube. A rear knurled locking ring allows for final tube rotation so the supplied sling swivel/bipod stud will be correctly positioned. All parts are finished in hard black anodize. Rifle weight is 13 oz. / length: 12.5". CAR weight is 8 oz. / length: 7 1/8".

Diamondhead Accessory Rail Segments...

Fit Diamondhead's V-RS Modular Drop-In Handguard above or the V-RS Free-Float Forend (next page). Mil. Std. 1913 Picatinny rail dimensions - anodized Mil. Spec. Type III 6061 T6 aluminum. Hex head screws included.

Diamondhead V-RS Free-Floating Rifle Forend - \$159.00 - Part# HGD-DH-FF-10

The Diamondhead V-RS Free-Floating Rifle Forend is designed to give a factory installed appearance to your rifle. It requires removal of both delta ring and factory barrel nut and replacement of the front sight with a low profile gas block. The V-RS kit includes a proprietary replacement barrel nut that allows for easy installation, and elimination of barrel nut timing issues. Multiple diamond shaped vents (proprietary to this Windham Weaponry version) keep your barrel cool. It is pre-drilled and tapped for Diamondhead's accessory rail segments (see below) when you want to add additional accessories, lights, etc. Length: 10.25", machined from Mil. Spec. Type III anodized 6061 T6 aluminum. Made in the U.S.A.

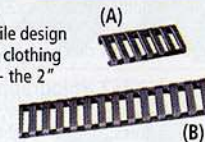

ERGO 7 Slot and 18 Slot Low Profile Picatinny Rail Covers...

Protect, cover and smooth Picatinny rails with these molded black plastic rail covers. Low profile design makes rifle handling comfortable while protecting the critical rail profile. Reduces snagging on clothing and gear. Can be trimmed to fit around mounted accessories, lights or grips. Sold individually - the 2" long cover (A) fits over 7 slots; the 7" long cover (B) fits over 18 slots.

ERGO 7 Slot Rail Cover - \$4.95 - Part# HGD-RAILCOVER-LADDER-2

ERGO 18 Slot Rail Cover - \$8.50 - Part# HGD-RAILCOVER-LADDER-7

Mission First Tactical Evolv™ 2.2" Picatinny Rail - \$14.95 - Part# HGD-MFT-RAIL-2

2.2" long Picatinny rail segment attaches to 6 or 7 vent hole handguards without modifications. (mounting screws through two vent holes) to add a mounting point for a vertical grip, flashlight or other accessory. Molded of rugged plastic, it's slight wedge shape aligns the rail surface perfectly with the barrel/bore.

Mission First React Short Foregrip for AR15/M16

\$24.95 - Part# VGRIP-MFT-SHORT

Fits any AR15/M16 Picatinny Rail to offer a non-slip grip, stabilizes the rifle in rapid fire and offers faster target acquisition. Features a water tight battery or small parts storage compartment with a flat, non-slip bottom to aid in supported firing positions. A customizable foam storage block reduces rattle of contents. Weight: 2 oz. / Height: 3.9" Made in U.S.A.

Magpul RVG Forend Grip for Picatinny Rails

\$24.95 - Part# VGRIP-RVG-BLK

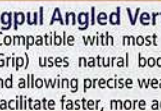

Fits Picatinny railed handguards as a traditional vertical grip, but is also optimized for the "thumb break method" of shooting taught by Magpul Dynamics. Includes mounting hardware, universal mounting rail segment for fitting to many plastic hand guards. Durable reinforced polymer plastic with non-slip textured surface.

Harris #5 BiPod Adapter

\$14.50 Part# BIPOD-ADAPT-HB5

Mounts the Harris BiPod to the standard AR15/M16 handguards through the hole in handguard. Includes rectangular interior plate, exterior washer, a threaded Q.D. stud and Q.D. Sling Swivel. Manganese phosphated steel parts. Made by Harris in the U.S.A.

Quick Detach Sling Swivel

\$9.95 - Part# BH-SLINGSWIVEL A quality Q.D. Sling Swivel for quick sling removal when bench shooting or cleaning the rifle. Machined steel with spring loaded release screw, 1 1/4" wide sling loop, attaches to our BiPod Stud or similar studs.

Q.D. Sling Swivel - \$13.95

Part# QD-SLING-SWIVEL As used on our new .308, - a 1 1/4" Q.D. Sling Swivel with construction of heavy steel. Push button release fits socket type Q.D. studs and cavities. Made in USA.

BiPod Stud & Spacer Kit - \$2.95 - Part# KIT-BIPODSTUD Mount a BiPod or Q.D. Sling Swivel to accessory handguards. Machined steel with Black Manganese Phosphate finish. Stud is threaded 10/32.

Bushnell 3-9x40 Scope w/BDC for AR15 / M16 \$249.95 - Part# BSHNL-AR/BDC

The Drop Zone-223 BDC reticle configured 3-9x40 AR Optics Rifle scope from Bushnell combines a fully multicoated optical path with a .223 caliber specific reticle to create a lightweight optic for targets up to 600 yds. out. The specially-designed Drop Zone-223 BDC reticle, 1/4 MOA impact correction clicks, and long 3.7" eye relief make this AR Optics rifle scope well-suited for a wide range of shooting tasks. This versatile optic features target turrets, side parallax adjustment, and comes with front & rear protective caps. We recommend using a pair of 1" Diam. High Rings and a pair of 1/2" Scope Risers for mounting - see our Blackhawk Weaver Ring Set (Part # WVR-1in-high) and Windham Weapony Scope Micro-Risers (Part # KIT-MR-02). Bushnell 3-9x40 Scope Features include:

Drop Zone-223 BDC Reticle Designed for .223 Cal. Ballistics
1/4 MOA Windage/Elevation Clicks
Fully Multicoated Optics / Second Focal Plane
Optical Performance: Magnification Range: 3.0 - 9.0x
40mm Objective Lens Diameter / Fully Multicoated Optics
31-11 ft (9.4-3.3m) Field of View at 100 yds.
3.7" eye relief, 13.1-3.5mm Exit Pupil Diameter

Second plane Drop Zone-223 BDC reticle
Use/Handling: BDC Reticle with .223 Ballistic Holdover Marks
1/4 MOA Impact Point Correction Clicks
55" (1.5m) Impact Point Correction Range at 100 yds.
Textured Zoom and Eyepiece Focus Rings
Construction Details: Matte Black Finish
Weight: 21 oz. (600g) / Length: 12.2" (31cm)

EoTech EXP52 Holographic Sight for AR15/M16 - \$579.00 - Part# EOT-EXP52-0

The EOTech EXP52 Holographic Weapon Sight is their shortest model sight yet. Smaller and lighter than other HWS sights, it runs on a single 123 battery to reduce sight length. The single battery configuration requires only 2 3/4" rail space leaving more room for rear iron sights, magnifiers or Night Vision. The Battery Cap with improved O-ring is tethered to the sight body to avoid loss. Battery life at brightness level 12 is 600 hours. Optics: Transmission holography - parallax free / Magnification: 1x / Eye Relief: Unlimited / Dimensions: Length/Width/Height: 3.5"x2.4"x2.8" (91.4x60.9x71mm) / Weight: 11.2 oz (317 gm) / Temperature: -40° to 150° F / Waterproof to 10 ft depth / Fogproof internal optics / Adjustment (per click): 0.5 MOA (1/2" at 100 yds). Details at: www.windhamweapony.com

EoTech XPS2 Holographic Sight for AR15/M16 - \$539.00 - Part# EOT-XPS2-0

Similar to the model above, the EoTech XPS2 is not Night Vision compatible, but has many of the same features. Small and light, it runs on a single 123 battery so it requires only 2 3/4 inch of rail space, leaving more room for rear iron sights, magnifiers, etc. An O-ring and tethered cap seal the battery compartment making it waterproof up to 10 ft. depth. Average battery life at brightness level 12 is roughly 600 hours. Mounts to a Weaver or MIL-STD-1913 Rail and is repeatable to within 1 MOA after re-mounting. Adjustment(s): 0.5 MOA (1/2" at 100 yds) / 20 Brightness Settings / Field of View (100 yds): 30 yds at 4" eye relief / Dimensions: 3.5"x2"x2.4". The XPS2 is a great compact option for your AR15/M16 platform.

EoTech G33.STS 3X Magnifier for AR15/M16 - \$589.00 - Part# EOT-3XMAGNIFIER

Shorter and lighter than previous models, the EoTech G33 Magnifier offers a new and improved mount for faster transitioning from 3x to 1x, tool free azimuth adjustment, larger field of view and an adjustable diopter for improved, more precise focusing. It offers split-second transitioning from CQB to medium range targeting with superior light transmission, large field of view, and more eye relief with windage and elevation adjustments that can be manipulated by hand without any tools. The new slap to side mount is incredibly durable and operates with the slap of your hand, knocking the mount to the side. The G33 also offers a locking, quick detach lever for easy attachment and removal of both the optic and the mount. This magnifier aligns perfectly with standard height sights and comes with a 7mm riser to accommodate the 7mm raised sights. Made by EoTech in the U.S.A.

EoTech Model 517 Holographic Sight - \$509.00 - Part# EOT-517-A65

The EOTech 517 A65 includes buttons that allow easy brightness adjustments on the left side for instant access, allowing a magnifier or a back up iron sight to fit closely to the sight body when a magnifier is mounted behind it. It uses standard AA 1.5v batteries (included) as a power source. In addition it has a cantilevered base that allows one to mount a part of the Holographic Sight over standard hand guards of an M4 Rifle or an AR15/M16 Rifle.

TRUGLO Tru Brite 5 MOA Red/Green Dot Sight \$79.95 - Part# TRUGLO-TG8385B

This multi reticle optic sight from TRUGLO is lightweight, waterproof, and offers a wide field of view with unlimited eye relief. It features multi coated lenses, both a red dot and a green dot (with 5 different brightness levels for each), and an integral Weaver / Picatinny style mount. Two knurled screws offer snug mounting to the rifle rail. It is powered by a single CR2032 lithium battery (included). Field of View at 100 Yards is 74', and Adjustment Click Value is 1". Length is 3.27", weight is 5.3 oz., and the aluminum housing is finished matte black.

Sights & Optics

Windham
Weapony

A.R.M.S.® #40L Front Flip Up Sight - \$107.95 - Part# ARMS40L-FRONT

This is a low profile, rail mounted, fold down front sight that can be mounted to picatinny rail type gas blocks when the rifle has a "same plane" sighting system. Its unique design ensures constant in-battery action and repeat zero, and its low profile allows an unobstructed sighting view when using optics. A spring loaded quick release lever prevents the sight from being accidentally engaged, but is quick to release even with gloves/mittens. Utilizes a standard M4 / AR-15 front sight post and accepts most aftermarket sight posts. A small stainless steel security cable prevents loss of the rail locking screw. Made by A.R.M.S. in the USA.

A.R.M.S.® #40L Rear Flip Up Sight - \$129.95 - Part# ARMS40L-REAR

A quality companion to the #40L Front Sight above offering lower profile (folded height .610"), clearance for mounting optics, and "same plane" design. It has .75 MOA click point of impact shift, a unique spring loaded design to ensure constant battery action and repeat zero. A quick release lever prevents the sight from being accidentally engaged, but it can be deployed with gloves or mittens. When released into battery, the 250-300 meter aperture is ready for immediate close combat use. The internal elevation zero utilizes the standard M16/M4 front sight bead. For longer ranges the leaf sight aperture is rotated to access the 500-600 capability with a built in horizon line to help lead distant targets. A stainless steel security cable prevents loss of the rail locking screw.

A.R.M.S.® #71 Front Flip Up Polymer Sight - \$40.95 - Part# ARMS71-FRONT

This economical yet precision Polymer Flip Up Front Sight fits all AR15/M16s with a Picatinny Rail Gas Block. Of durable, metal-reinforced polymer construction, it is adjustable for elevation with its Steel Front Sight Post. Height is .600" from the top of the rail when folded down. A spring loaded mechanism deploys the sight quickly when its forward locking latch is depressed.

A.R.M.S.® #71 Rear Flip Up Polymer Sight - \$58.95 - Part# ARMS71-REAR

The ARMS #71 Flip Up Rear Sight fits all AR15/M16 rifles with a "flat-top" Picatinny Rail Upper Receiver. Its durable, metal-reinforced polymer construction offers both economy and precision. Height is .600" from the top of the rail when in folded position. A spring loaded mechanism deploys the sight quickly when its forward locking latch is depressed, and the #71-Rear features the same windage adjustable metal dual apertures utilized in the A.R.M.S. #40L sight above.

A.R.M.S. #71L Front & Rear Sight Combination - \$96.95 - Part# ARMS71L F/R

Diamondhead Front Flip Sight for AR15/M16 - \$109.00 - Part# DH-FRONTFLIP

This sight's unique diamond-shaped housing frames and centers the target - especially when integrated with its companion Rear Sight (below). It flips up quickly for rapid deployment, and folds down at the push of a button. This sight will stay up securely and remains zeroed in combat situations, and its elevation adjustments are secure and accurate. Easily installed on Picatinny Rail Gas Blocks. A standard A2 Front Sight post is included, and construction is Mil. Spec. Stainless Steel and Type 111 black anodized 6061 T6 Aircraft Aluminum.

Diamondhead Rear Flip Sight for AR15/M16 - \$129.00 - Part# RS-10001

A premium back up iron sight, the Diamondhead Rear's detent button locks the sight in a deployed position and folds down with the push of a button. Its unique diamond-shaped aperture places the front post perfectly in the rear aperture's center. Short and long range apertures are on the same plane, and same height as factory A2 sights (note: if using this sight with an A2 standard front sight base, an .040" taller sight post will be required). Windage adjustments are 0.5 MOA accurate, small or large aperture can be active in either deployed or stowed mode. Folded height is a compact 0.435". Construction is Mil. Spec. Stainless Steel and Type 111 black anodized 6061 T6 aircraft aluminum. Made in the U.S.A.

Magpul MBUS Front Flip Sight for AR15/M16 - \$39.00 - Part# MP-MBUS-FRONT-BLK

The new Magpul MBUS (Magpul Back-Up Sight) is a low-cost, injection molded, folding back-up sight. Specifically tailored to the AR15/M16/M4 platform, it conveniently folds down and locks into place but flips up with just a press of the button. Elevation adjustable, this polymer sight deploys instantly at the touch of a finger to provide backup sighting if a primary optic fails. The smooth design reduces snagging on brush or other gear when folded. It quickly mounts to any mil-spec 1913 Picatinny rail - must be mounted on a rail that is on the same plane as the upper receiver rail to witness correctly with rear sight. 1.5" long deployed, 2.5" long folded, 1.2" wide, .5" high folded, 1.5" high extended. Sight post .070" wide.

Magpul MBUS Rear Flip Sight for AR15/M16 - \$57.00 - Part# MP-MBUS-REAR-BLK

The new Magpul MBUS (Magpul Back-Up Sight) is a low-cost, injection molded, folding back-up sight. Adjustable for windage, it fits all MIL-STD-1913 Picatinny rail equipped weapons, but is specifically designed for the AR15/M16/M4 platform. Its reduced size offers greater optics compatibility. Both small and large apertures are on the same plane, and its impact resistant polymer construction provides light weight and resists operational abuse. Detent and spring pressure keeps sight erect but allows for unobstructed folding under impact, etc., and protective wings shield the dual flip apertures. Adjustable for windage and includes both small and large apertures for various distances. Weight 1.3 oz. / Height above rail - stowed: 0.51" / Length - stowed: 2.6" / Length - deployed: 1.5"

Sights & Optics

Blackhawk Tactical High Scope Mount Ring Set - \$39.95 - Part# WVR-1in-high

These Blackhawk® Six-Hole Tactical 1-Inch Weaver Rings are machined from strong, lightweight aluminum with six screws for maximum security, clamping pressure, and added strength for serious LE and military use. A large locking nut secures them to Picatinny rails. These rings feature an improved Picatinny crossbolt design, Type III hard coat anodized finish and no strip/slip Torx screws. All of these features make these riflescope rings the go-to mounts for all tactical precision rifles. An installation wrench is included. The High Mount size of these rings will accommodate up to a 44mm objective lens scope. However, mounting a scope on an AR type rifle will also require 1/2" risers to raise the scope up high enough for a comfortable cheek weld and for proper view through the scope - See our Micro-Risers below.

Windham Weaponry Scope Micro-Riser for Picatinny Rails - \$15.95 - Part# KIT-MR-02

As installed on our VEX-SS Varmint Rifles, this scope riser clamps to any Picatinny Rail, and raises scope height by 1/2 inch. Its two piece design will not mar camo finishes, yet clamps onto the rail firmly with its separate side clamp and two allen head screws (included). The two allen screw heads recess into the riser so they can't snag on clothing or webbing. 1 1/4" long; machined of aircraft aluminum with black anodize finish. Two required to mount most scopes. Made in the USA.

A1/A2 Sight Adjustment Tool - \$6.95 - Part# SIGHTTOOL-A1-A2

Essential in your AR15 range bag, it adjusts height of both "5 notch" A1 and "4 notch" A2 Front Sight Posts - even the flip-up sights with taller "ears" on either side of the sight post.

Gunsmithing

Dewey 30" Barrel Cleaning Rod

\$30.95 - Part# CLEANINGROD-30

Dewey Chamber Cleaning Rod with Brush

\$15.95 - Part# CLEANINGROD-CHAMBER

Dewey Rods are famous throughout the shooting world for their quality and durability. For all .22 / .223 / 5.56mm barrels, the 30" rod is nylon coated to protect rifling and has a heavy plastic handle with internal ball bearings to allow the rod to track the rifling in the bore as you clean. Included with the 30" rod is an 8/32 female to 8/36 female thread adapter and a jag.

The Dewey Chamber Cleaning Rod is specifically for the AR15/M16 platform rifle and includes a .223 / 5.56mm chamber brush. The 16" heavy brass rod and handle are long enough to easily reach the chamber through the rear of the receiver.

.223/5.56mm Bore Brush - Part# BRUSH-BORE-223

\$1.95 A top quality Bore Brush for .223/5.56mm caliber barrels. Finest phosphor bronze bristles, threaded 8/36. Purchase the adaptor below to fit commercially threaded 8/32 rods.

Dewey Military Thread Adapter - \$3.95

Part# CLEANINGROD-ADAPT

This machined brass adaptor from Dewey is threaded 8/36 female to 8/36 female to mount military style brushes onto commercial .22 Cal. Cleaning Rods. Made in the USA.

Telestock

Wrench for AR15/M16 - \$8.95

Part# WRENCH-TELE Essential for the armorer or AR owner, this dual function wrench fits the castellated nut that locks the Telestock to the Receiver - includes a cutout that fits the end of the receiver extension tube. Handle is plastic coated for comfort. Black manganese phosphate coated steel - made in U.S.A.

Handguard Removal Tool for AR15/M16

\$15.95 - Part# HGD-TOOL A necessity for any AR shooter or agency armorer, this tool eases removal of standard handguards on M4 carbines, mid length and rifle length AR15 rifles. Hooked end locks into the magazine well, and as you squeeze the two lever handles, even downward pressure compresses the delta ring to allow the handguard halves to pop off. This one piece construction tool has protective plastic to prevent damage to the finish of your rifle.

W-W .223 / 5.56mm Chamber Brush - \$4.50

Part# BRUSH-CHAMBER-223 A Mil. Spec. quality Chamber Brush - threaded 8/36 to fit military rods. Bronze bristles scrub out the chamber while the longer, stainless steel tufts clean the locking lug recesses. Purchase the adaptor at left to fit commercial 8/32 rods.

WW Magnetic Gun Cleaning Mat - \$23.95

Part# CLEANINGMAT Our gunsmith discovered this great 54" x 16" Industrial Grade PVC Membrane mat. Two magnetic strips hold springs, detents and small parts in place while you work. Withstands solvents and bore cleaners, will not absorb chemicals. Screen printed with a gold Windham Weaponry logo. From Armor Industrial Products - U.S.A.

A counterterm / visual guide to our WW-15 Rifle - every part of the rifle printed in full color on heavy stock, laminated for work bench protection. Non skid foam backing, overall size is 18" x 12" - a great gift!

Wipe-Out Tactical Advantage Bore Cleaner

\$15.95 - Part# CLEANER-TACADV

Designed for the tactical shooter, this very "carbon aggressive" bore cleaner removes copper and powder fouling with a minimum of effort. It dissolves carbon on contact, is easy to use, less messy, and odorless. It protects all metal parts against corrosion and rust and is safe for all types of steel and all metal plating (including chrome lined barrels). 8 fluid ounces - made in the U.S.A.

SEAL 1™ CLP Plus® in Aerosol Can

\$21.95 - Part# CLEANER-SEAL1-AEROSOL

The SEAL 1 CLP Plus is a "Green Engineered"™ biodegradable, non-toxic, Cleaner / Lubricant / Protectant that liquefies carbon on contact, wipes fouling residues clean after 2 or 3 applications and reduces subsequent cleaning times. It also creates a protective barrier that inhibits residue buildup such as copper, lead, sand, dust and dirt. We have found these Maine made products highly effective (packaging says California, but they are actually manufactured in Maine). The 6 oz. aerosol can will give you many rifle cleanings.

SEAL 1™ SEALSKINZ Pre-Saturated Bore Cleaning Patches for .223 / 5.56

\$5.95 - Part # CLEANER-SEALSKINZ

SEAL 1 SEALSKINZ are 100% cotton, .223 bore cleaning patches pre-soaked with SEAL 1 CLP Cleaner / Lubricant / Protectant. Each SEALSKINZ pouch contains 40 - 100% cotton flannel, double napped, patches. These 1 1/4" diameter patches work for rifles from .22 to .270 caliber and have the density and durability to get the job done properly. Plus, being pre-soaked with SEAL 1 CLP - a "Green Engineered" non-toxic product - means you'll clean your bore easier and quicker, without any toxic odors.

SEAL 1™ 100% Cotton Flannel Patches

\$2.95 - Part # CLEANER-PATCHES-223

An absolute essential in your weapons cleaning gear, SEAL 1 100% cotton flannel, double napped .223 bore cleaning patches have the density and durability to get the job done properly. These 1 1/4" diameter patches work for rifles from .22 to .270 caliber, and are packaged in a plastic bag of 100. Top quality fabric - manufactured in the USA.

AR15/M16 Bolt & Carrier Carbon Scraper MultiTool - \$36.00 - PART# CARBONSCRAPER

Here's the handiest AR Bolt & Carrier care tool you can carry. The Combat Application Tools C.A.T. M-4 Tool allows the operator to clean the weapon and restore the bolt and carrier group to tactical tolerance in a matter of minutes - in the field - with gloved hands - in low light conditions if necessary. 3.5" long - 1.4 oz. - investment cast from 300 series stainless steel, the "forked" end is a bolt cleaning chamber CNC machined to precisely fit a mil-spec bolt. The circular indent with the cross shape will clean carbon from the firing pin shoulder and the hex opening is designed hold the common hex bits. The "blade" end will scrape out the bolt carrier, and the slot just ahead of it is for inserting a patch to help remove all traces of carbon buildup. Made in the USA.

Wipe-Out Patch-Out Brushless Bore Cleaner

\$13.95 - Part# CLEANER-PATCH-OUT

This effective product has impressed us. Heavily fouled barrels come clean in a very short time - with no destructive brushing and no pitting. It will dissolve brass, bronze, and copper, and will degrade lead so it can be pushed out with a patch. It cannot cause rust, will not gum or form solids, and is safe for all barrel steels - carbon and stainless. 8 Fluid ounces - made in the U.S.A.

SEAL 1™ Cleaning Products Kit

\$28.95 - Part# CLEANKIT-SEAL1

The SEAL 1 CLP Plus® Cleaning Kit is set of "Green Engineered" biodegradable, non-toxic, Cleaner, Lubricant, Protectant products to keep your rifle functioning in top form. Made in Maine, these highly effective products liquefy carbon on contact, quickly remove fouling residues and leave a micro protective barrier that inhibits copper and lead buildup, and protect against sand, dust and dirt. Kit includes:

- 1 - 4 oz. jar of multi-purpose CLP Plus Gun Care Paste
- 1 - 4 oz. bottle multi-purpose CLP Plus Gun Care Liquid
- 1 - 4-Pack SEAL 1 CLP PLUS Pre-Saturated EZ-Cloth (6" sq. cleaning cloths pre-saturated with SEAL 1 CLP PLUS paste)
- 1 - 12" x 12" square micro fiber cloth
- 1 - nylon bristle brush
- 2 - 2 oz. Tubes of CLP Plus Gun Care Liquid

SEAL 1™ CLP Plus® Liquid \$12.95 Part# CLEANER-SEAL1-LIQUID

Like the Aerosol above right, this SEAL 1™ CLP Plus® is a "Green Engineered"™ biodegradable, non-toxic, Cleaner / Lubricant / Protectant to give you the "Tactical Advantage". Liquefies carbon on contact, wipes fouling residues clean after 2 or 3 applications, and reduces subsequent cleaning times. Inhibits residue buildup of copper, lead, sand, dust and dirt. These are highly effective products - actually manufactured in Maine - 4 oz. plastic bottle offers many cleanings.

SEAL 1™ CLP Plus Paste - \$9.95

Part# CLEANER-SEAL1-PASTE

SEAL 1 CLP Plus® Paste is an all purpose Cleaner / Lubricant / Protectant that dissolves, and creates a barrier to resists copper, lead, and carbon buildup. We have found these "Green Engineered"™ SEAL1 Maine made products highly effective, and the 4 oz. screw top jar will give you many rifle cleanings. Its biodegradable formulation protects the environment, and non-toxic so you can work without fumes or nasty mess.

Gunsmithing

Tetra Gun Cleaning Pack - \$22.95 Part# GUNCLEANINGPACK

Tetra's "4 in 1" Gun Cleaning Pack cleans, lubricates and protects your firearms with a complete chemical cleaning set. Contains: 3.75 oz. Tetra Spray Lubricant, 1 oz. Tetra Lubricant, 1 oz. Tetra Gun Grease, 4 oz. Copper Solvent, and a Tetra "Gun Cleaning Made Easy" DVD.

Tetra ValuPro Gun Cleaning Kit \$18.95 - Part# CLEANKIT-TETRA

This kit offers the highest quality and versatility all in an attractive, compact plastic case - everything the shooter needs to maintain, clean and lubricate a firearm. Includes Tetra Gun Grease (10g), 2 oz. Triple Action (cleaner - lubricant - protectant), .223 cal. bronze bore brush, cotton patches, patch holder, cleaning rod, and extension pieces.

Accessories

CMMG .22 LR Conversion Kit for AR15/M16 \$229.95 - Part# KIT-22LR-CONV

This .22 LR Conversion System comes completely assembled and ready to install in any AR15/M16. No gunsmithing or rifle alterations required - it uses your factory upper receiver, barrel, fire control system, buffer and spring. Just replace the bolt and carrier with the CMMG conversion unit, closing the receivers, and load up the included magazine with high-velocity round-nose .22 LR ammo. Test fired to ensure correct function, precision machined from high-grade stainless steel and brass for proper fit in any mil. spec. .223 / 5.56mm rifle or carbine. One gray polycarbonate 25 round magazine is included - features self-lubricating anti-tilt follower and constant-force spring to help ensure reliable feeding. Made by CMMG in the USA.

Extra CMMG .22 LR Conv. Kit Magazines \$24.95 - Part# 22LR-CONV-MAG

Due to state regulations this magazine cannot be shipped to CA, CO, CT, District of Columbia, MA, MD, NJ and NY, Hawaii. Parts of Illinois and Indiana also have local restrictions.

Brass Deflector for Flat-Top Upper Receiver \$23.95 - Part# BRASS DEFLECTOR-FT

This lightweight brass deflector for the flat-top redirects empty rounds to one area for easy pickup, while protecting your face, skin and clothes from hot, discharging brass. It is especially helpful to left handed shooters and also useful to reloaders as it makes brass pickup easier and more manageable. Legal for use in NRA High Power competition. Installs with little or no gunsmithing by clamping onto the AR flat top's Picatinny rail with a thumbscrew. Steel construction with plastic rail protectors - black finish.

W-W Logo Sticker \$1.95 - Part# ACC-DECAL

Display your brand loyalty for the finest AR15 type rifle made with this Windham Weaponry adhesive logo sticker. Apply it to car/truck bumpers, tool boxes, or any smooth surface. Printed in bright blue & gold on white adhesive vinyl, it measures - 6" x 2.5" in size.

W-W "Static-Cling" Logo Sticker - \$1.95
Part# ACC-WINDOWDECAL Same logo image as above
38 reverse printed on clear static-cling vinyl for window use.

Harris Adjustable BiPod \$124.95 - Part# BIPOD-S-LM

Harris bipods quickly attach and detach on a variety of rifles. They mount to a quick detach sling swivel stud (see Page 28) and offer adjustable height legs. The legs extend by spring action, height settings are adjustable from 9 to 13" (adjustment height range is from resting surface to center of bore), notches on the legs help with leveling. Legs fold out of the way when not in use. Constructed of aluminum and high carbon steel, anodized black finish.

Yankee Hill BiPod Adapter - \$33.95

Part# BIPOD-ADAPTER-YHM
Attaches to any Picatinny type rail to accept most bipods. Machined aluminum with 7/64ths Allen Head Screws - black anodized finish hardcoated to Mil Spec - with steel bipod mounting stud.

Blackhawk 1 Point Storm Sling \$32.95 - Part# SLING-BH1PT-BK

The rugged Blackhawk 1 Point Storm Sling is made from high-quality 1.25" nylon webbing, adjusts 46" to 64" (diam.) with a tri-glide buckle to fit all body sizes or over bulky tactical gear. Single-point attachment design makes it ambidextrously functional and user friendly. An elliptical bungee segment provides comfort and support, and offers 4" of flex for weapon agility and CQB tactics. The bungee section is encased in compressed tubular nylon sheathing to limit bounce and enhance retention, and the elastic-encased mash clip provides quiet single-point weapon attachment. Made in the USA.

Black Web Sling - \$4.95 - Part# 12624561

A quality sling - we include one with every gun we sell. Heavy 1 1/4" width black nylon webbing, two black phosphate finished steel buckles - overall length 52".

Chamber Plug/Multi-Tool for AR15/M16 \$7.50 - Part# CP-02

Bright yellow, high strength composite plastic, this handy tool shows the rifle is unloaded when inserted in the chamber, it can be used as push pin tool for pivot and take down pins, and it's also a magazine unloading tool.

Accessories

Windham Weaponry 25 Meter Zeroing-In Targets - 10 Pack \$3.95 - Part# KIT-TARGET

As an aid to achieving all the accuracy built in to your rifle, these well designed Zeroing-In Targets have a center mass target as well as 4 individual zeroing targets with instructions for front & rear sight adjustment. Ten 14" x 20" targets printed black on non-glare tan stock in a waterproof poly bag.

Windham Weaponry Embroidered Patch \$2.95 - Part# ACC-PATCH

With this high quality embroidered Patch, you can add the Windham Weaponry script logo to your shooting jacket, vest, range bag, or any other location you want to show your Windham Weaponry pride. Finely stitched in Dark Blue & Gold, approx. 3 1/4" wide x 1 1/2" high, with thermoplastic backing. Made in the USA.

Windham Weaponry Apparel
